Conditions of Award

The purpose of the Summer Scholarship Program is to provide students with an opportunity to gain access to and engage with academic staff and research projects over the summer holidays. The Summer Scholarship is offered for a maximum of 6 weeks and will be paid at the current Australian Postgraduate Award (APA) rate, which in 2016 is $506 per week. This will be paid to recipients in one instalment at the end of the project. The accommodation bursary will be paid in full in the first week of the project.

The scholarships will be awarded under the following conditions:

Applicants will be required to submit an application to the School.

Applicants must be enrolled on a full time basis.

Applicants must be performing at credit level (AAM 65) or above to be considered for these scholarships.

Scholarships are awarded on the basis of academic merit and availability of suitable projects.

Applicants can only receive one Summer Scholarship per year.

Students are to provide a brief summary of their experience to the School issuing their scholarship within one month of completing their project. This may be used with the recipient’s permission on the Faculty’s website to encourage other students who might be considering doing a Summer Research Scholarship.

Scholarships are awarded by the Dean of the relevant Faculty within the Division of Natural Sciences, on the recommendation of the appropriate Head of School.

If a recipient lives outside the Sydney Metropolitan Area, they may also be offered additional funds of up to $250 per week to cover accommodation costs.
