Admissions Committee - Terms of Reference

Purpose

The Admissions Committee advises the Academic Board and its Committees about resolutions, policy and procedures relating to admissions to award courses at the University of Sydney.

Terms of Reference

- To advise the Academic Board on:
 - resolutions, policy and procedures relating to all student admissions to the University; and
 - issues relating to admissions not based solely on the Australian Tertiary Admissions Rank (ATAR).
- To make recommendations to the Academic Board, or, if deemed appropriate by the Admissions Committee to the Undergraduate Studies Committee and/or the Graduate Studies Committee, regarding:

- a. English language requirements for admission to award courses;
 - b. recognition of institutions, programs and courses for the purposes of admission;
 - c. approval of admissions criteria in addition to the ATAR;
 - d. approval of preparatory programs of study in prior learning;
 - e. approval of special admission schemes;
 - f. confirmation of academic selection criteria for international students set by Deans; and
 - g. University-wide Credit Transfer Policy for all coursework.
3. To oversee and approve the publication of admissions advice.
 4. To exercise all reasonable means to provide and receive advice from the University Executive and its relevant subcommittees.
 5. To provide an annual report on its activities under its terms of reference to the Academic Board.
 6. To consider and report on any matter referred to it by the Academic Board, the Vice Chancellor, Academic Board committees or the Chair of the Academic Board.

2.2 Actions Arising

There were no actions arising.

3 STANDING ITEMS

3.1 Report of the Chair

The Chair advised that he had nothing to report.

Resolution AB Adm 2017/4-2

That the Admissions Committee note the report of the Chair.

3.2 Report of the Academic Board meeting of 2 May 2017

In addition to the written report circulated with the agenda, Associate Professor Masters advised that at its 17 May meeting, Senate was provided with a verbal report on the proposed *University of Sydney (Academic Board) Rule 2017*, which is intended to replace the current *University of Sydney (Academic Governance) Rule 2003 (as amended)*. As the Academic Board was advised on 2 May, it is also proposed to separate procedures for elections from the Rule, and a set of draft Procedures is currently in development. This will allow more agile adoption of electronic election management without requiring the Rule to be approved by Senate.

Several recommendations were made in the Report of the Review of the Academic Board, to free up Academic Board meeting time to discuss strategic matters rather than routine course approvals, and several possible mechanisms to enable this were also advised to Senate. These include starring items presented as part of the reports of the Standing Committees only in advance of the meeting (rather than from the floor), and of possibly restructuring committees to include membership directly from the members of the Academic Board as well as retaining representation from faculties and PSUs as currently. Committee structures are slated for review as the next substantial part of the implementation of the Review's recommendations, and members were advised that the Rule is intended to allow the Board to determine its own committee structures.

The Committee noted the written report circulated with the agenda.

Resolution AB Adm 2017/4-3

That the Admissions Committee note the report of the Academic Board meeting held on 2 May 2017.

3.3 Report of the Deputy Vice-Chancellor (Registrar)

In Professor Carlin's absence, Ms Kiernan spoke to the confidential written report of the Semester 1 2017 admissions round, as circulated with the agenda. She informed members that the round had been very positive for the University, with Sydney leading preferences and meeting offer targets as well as improving the median ATAR required for admission. Intake has also improved via each of our special admission pathways and in direct international admissions, offsetting drops in some domestic postgraduate coursework programs.

In discussion, the Chair advised that he was pleased to see a reduction in the number of students admitted with an ATAR below the published cut-off and that this should increase public confidence in the cut-offs. A possible gap in public reporting on Sydney's full transparency was identified, and the Chair advised that media reports on lack of transparency now focus on other institutions. The positive effect on student and parent perceptions of maintaining a high ATAR whilst being fully transparent was highlighted, with further opportunity to disseminate this information more broadly. The importance of advising staff about this was noted, especially for those who engage with the public such as Student Recruitment and staff working at events such as Open Day. Disseminating this information to school careers advisors and others in the community was also recommended. Ms Cheng recommended that a coordinated message be communicated to Open Day staff regarding the possibility of flexibility, with general agreement that this include a statement such as "if demand allows" in any future communication.

The Chair also questioned the possible drop in conversion from offer to enrolment and Ms Kiernan advised that 2016 statistics were not immediately to hand for comparison, but that these would be looked at to see how 2017 compared to previous years.

The Committee noted the written report circulated with the agenda.

Resolution AB Adm 2017/4-4

That the Admissions Committee note the Report on Admissions for Semester 1, 2017, as presented.

4 ITEMS FOR ACTION

4.1 Architecture, Design & Planning: Master of Urban Design

Associate Professor Davis spoke to this proposal and advised that the proposal has arisen from a desire to expand the pool of potential applicants by removing the requirement for a Credit average for undergraduate study, broadening the disciplines from which the program can draw, and allowing discretion as to when a portfolio might be required. Associate Professor Davis also advised the Committee of a transcription error in the proposal necessitating an update to clause 3.5(2), such that the wording "or completion of the requirements of the embedded Graduate Certificate with a WAM of at least 65" be retained and not deleted as presented.

In discussion, members sought clarification as to the circumstances under which a portfolio may be requested and was advised that this will be at the discretion of the Program Director based on a combination of academic performance and disciplinary background; this would be very difficult to capture in writing. It was agreed to amend the wording of clause 3.5(3) to read "Based on the applicant's undergraduate performance, the Program Director reserves..." and delete "A portfolio should only be provided if requested by the Program Director." These changes would be incorporated and an amended version of the resolutions would be circulated to the Committee before presentation to the Academic Board.

Ms Kubra Chambers sought clarification as to whether the school had any evidence to suggest that this strategy would work to increase enrolments into the program. The Committee was advised that while no formal market research has been undertaken, the admission criteria for the Master of Urbanism (which has a higher intake than Urban Design and includes an Urban Design stream) are similar; the school is therefore confident that the amendment will improve enrolments.

The proposal was endorsed as amended for presentation to the Academic Board.

Resolution AB Adm 2017/4-5

That Admissions Committee recommend that the Academic Board:

- (1) approve the proposal from the Sydney School of Architecture, Design & Planning to amend the Graduate Diploma in Urban Design and Master of Urban Design; and*
- (2) approve the amendment of course resolutions arising from this proposal with effect from 1 July 2017.*

4.2 Engineering & IT: Graduate Diploma in Health Technology Innovation

The Chair advised that written advice had been obtained from the proponent supporting the deletion of the final sentence of clause 6.3(3)(a). It was agreed that this will now read: "A minimum of a bachelor's degree from the University of Sydney, or qualifications deemed by the faculty to be equivalent, with a minimum credit average." The sentence that follows this is to be deleted.

In discussion, Ms Cheng observed that there was no standard means of identifying what constitutes a 'credit average', with faculties using WAM, AAM, GPA or other means of quantifying this value. It was agreed that while stipulating a 'credit average' lacks clear definition, it also allows flexibility in determining how the standard is measured. This is particularly useful in assessing Sydney graduates against non-Sydney domestic and international students (who will not have a WAM).

The proposal was endorsed for presentation to the Academic Board.

Resolution AB Adm 2017/4-6

That the Admissions Committee recommend that Academic Board:

- (1) approve the proposal from the Faculty of Engineering and Information Technologies to amend the Graduate Diploma in Health Technology Innovation; and*
- (2) approve the amendment of course resolutions arising from the proposal with effect from 1 January 2018.*

4.3 Medicine: Master of Bioethics

Dr Claire Hooker attended the meeting to speak to this proposal and advised that the proposed increase in IELTS will bring this program into closer alignment with other offerings in the faculty (many of which have an IELTS of 7 with minimum 7 in each band). The program is largely text-based and relies on written and verbal argumentation and so requires additional language proficiency. Teaching staff in the program have observed that students with weak language skills struggle to perform and have a poor student experience, both of which impact on staff workload. The change is propose to be effective from Semester 1 2018, and has been unanimously supported at faculty level.

The proposal was endorsed for presentation to the Academic Board.

Resolution AB Adm 2017/4-7

That the Admissions Committee recommend that the Academic Board:

- (1) approve the proposal from Sydney Medical School to increase IELTS score requirements for the Master of Bioethics, Graduate Diploma in Bioethics and Graduate Certificate in Bioethics; and*
- (2) approve the amendment of the Schedule of English Language Requirements – Postgraduate, as referenced in the Coursework Policy 2014 with effect from 1 January 2018.*

4.4 National Expansion of Future Leaders Scheme: Amendment of Coursework Policy 2014

In Mr Finneran's absence, the Chair and Ms Kiernan spoke to this proposal. The Chair informed members that based on the success of the scheme in enabling enrolment from the selected cohorts in the Semester 1 2017 admissions round, it is proposed to expand the scheme in a staggered delivery, to encompass ACT schools in 2018 and possibly expand nationally in 2019 (should resources permit). In discussion, the possible impact on this scheme of the new Mathematics prerequisite for identified programs from 2019 was flagged for investigation. Ms Brook also sought advice as to where the students admitted via this scheme came from, and was advised that the scheme had increased urban, regional and rural admissions in this category, and served as an important mechanism to maintain the University's ongoing relationship with these schools.

The proposal was endorsed for presentation to the Academic Board.

Resolution AB Adm 2017/4-8

That the Admissions Committee recommend that the Academic Board approve the amendment of the Coursework Policy 2014, as presented, with effect from 27 June 2017.

4.5 UAC Schedules

Ms Kiernan informed members that each year following the Semester 1 admissions round, the UAC reviews its schedules for assessment of applicants with international secondary qualifications. This proposal presents the assessment of the Admissions Office on proposed amendments to the UAC schedules. In discussion, the Chair especially highlighted the change to the assessment of applicants holding a Diploma or Advanced Diploma, which closes the gap between recent and non-recent school leaver applicants.

The proposal was endorsed for presentation to the Academic Board.

Resolution AB Adm 2017/4-9

That the Admissions Committee recommend that the Academic Board approve the adoption or rejection of UAC schedules for applicants with overseas qualifications, as presented, with immediate effect.

5 ITEMS FOR NOTING

6 OTHER BUSINESS

6.1 Any Other Business

The Chair raised two pieces of additional business.

- (1) The recent announcement from HR was flagged, advising of changes to the University close-

down to enable the earlier processing of UAC offers in December, as well as to enable the earlier scheduling of Open Day to allow students to change their preferences as required in mid-December.

- (2) The draft response prepared by the Director of Higher Education Policy and Projects to a paper on ATAR transparency had been circulated to the Committee following its previous meeting. The Chair has provided additional feedback requesting incorporation of advice that the University is keen to distinguish between students who obtain the required ATAR and those who do not, observing that a significant number of applicants via special admission pathways obtain an ATAR in excess of that required for admission without flexibility. Identification of equity pathways is particularly important to the University, and the Deputy Vice-Chancellor (Registrar) has undertaken to edit the University's response accordingly.

There being no other business, the meeting ended at 12:08pm.

Next meeting: 10:00am – 12:00pm, **Tuesday 11 July 2017**
Western Tower Boardroom, Quadrangle

Item No	3.1

Author	A/Prof Gaby Ramia
Reviewer/Approver	(insert name and position)
Paper title	Minor Course Amendment: Master of Economic Analysis
Purpose	Endorsement of Minor Course Amendment for the Master of Economic Analysis

RECOMMENDATION

That the Admissions Committee recommend that the Academic Board:

- (1) approve the proposal from the Faculty of Arts and Social Sciences to amend the Master of Economic Analysis and embedded courses; and*
- (2) approve amendments to the Course Resolutions arising from the proposal, with effect from the 1 January 2018.*

EXECUTIVE SUMMARY

The purpose of the proposal is to amend the admission requirements for the Master of Economic Analysis in order to

- provide entry to the Master of Economic Analysis to students who achieve a WAM of 75 in the Graduate Certificate in Economic Analysis
- to restrict entry to those who achieve a WAM of 75 in the Graduate Diploma of Economic Analysis
- to provide entry to the Master of Economic Analysis to students who achieve a WAM of 85 in the Graduate Certificate in Economics.

CORRESPONDENCE

As this item is being considered by circulation, the Chair of the Admissions Committee has asked the proponents of this motion for some clarifying information for the benefit of the committee.

What is the reason for the higher than usual WAM of 75 required for articulation upwards from certificate to diploma to masters?

The upgrade criteria from the Graduate Certificate to the Graduate Diploma reflects the fact that the “Core Elective” units required in the Graduate Diploma are taught at an advanced level which requires mastery of the material in the core units within the Graduate Certificate. Our experience is that students who score less than 75 in these units are unable to cope with the material taught in these advanced courses, which build on the skills in the core units and apply them to topics towards the frontiers of research in economics. The Graduate Certificate in Economic Analysis is targeted at students with a strong mathematical background who cannot gain direct admission to the Masters course due to the lack of a major in Economics. Note that the higher requirement to upgrade is comparable to the higher admissions requirement for the MEcAnalysis compared to the MEc.

What is the reason for the even higher WAM of 85 (HD) for required for articulation from Grad Cert Economics. Is there something missing/different in the Grad Cert Economics vs Grad Cert Economic Analysis for a student to achieve to require this extra WAM of 10 for entry?

In terms of the Grad Certs in Economics and in Economic Analysis – yes, they are very different. The Graduate Certificate in Economics consists of 4 foundation units designed for students without a background in either economics or mathematics (ECON5001, ECON5002, ECMT5001, ECON5005). These units are the

prerequisites for the units in the Graduate Certificate in Economic Analysis (ECON6001, ECON6002, ECON6003, ECMT6002). Students achieving 75 in the 5000-level units often struggle to achieve a similar score in the more difficult 6000-level units. The proposed admission requirement is based on our experience of who is best placed to succeed in the MEcAnalysis which is a substantially more rigorous program than the Master of Economics.

Minor Course Amendment Proposal

1. Name of award course

Master of Economic Analysis

2. Purpose of proposal

To amend the Resolutions of the Senate for the Master of Economic Analysis Degree to:

- provide entry to the Master of Economic Analysis to students who achieve a WAM of 75 in the Graduate Certificate in Economic Analysis,
- to restrict entry to those who achieve a WAM of 75 in the Graduate Diploma of Economic Analysis
- to provide entry to the Master of Economic Analysis to students who achieve a WAM of 85 in the Graduate Certificate in Economics

3. Details of amendment

Economic Analysis

Section 5: Admission to Candidature

5 Admission to candidature

- (3) Admission to candidature for the Master of Economic Analysis requires:
- (b) completion of the requirements for the embedded [Graduate Certificate or Graduate Diploma in Economic Analysis with a minimum Distinction \(75%\) average](#), or an equivalent qualification; or
- (c) completion of the requirements for the Graduate Certificate in Economics with a minimum High Distinction (85%) average, or an equivalent qualification.

Section 9: Transitional provisions

9 Transitional provisions

(1)

These resolutions apply to students who commenced their candidature after 1 January, 2017~~8~~ and students who commenced their candidature prior to 1 January, 2017~~8~~ who elect to proceed under these resolutions.

4. Transitional arrangements

No students currently enrolled in the Master of Economic Analysis will be affected.

Students currently enrolled in the Graduate Certificate of Economic Analysis will be able to upgrade to the MEdAnalysis directly instead of upgrading via the Graduate Diploma of Economic Analysis.

Students currently enrolled in the Graduate Diploma of Economic Analysis will be able to continue under the prior degree resolutions.

Students currently enrolled in the Graduate Certificate in Economics will be able to enrol in the Master of Economic Analysis if they achieve a WAM of 85.
