Purpose	Endorsement of the learning outcomes for undergraduate courses and course components

EXECUTIVE SUMMARY

Following feedback from the Undergraduate Studies Committee (USC), the Faculty of Arts and Social Sciences has made some changes to the Course, and Course Component, Learning Outcomes.

As these learning outcomes have been through a rigorous discipline-specific, and then faculty-based review, changes were only adopted if there were mistakes or significant problems identified. Any feedback that suggested minor word changes or re-writes based on people's preferred expressions, rather than structural issues, were taken as feedback. This feedback will be complied and sent to disciplines for their consideration as they engage in the next phase of the curriculum mapping project.

At the end of this document, please find a list of the learning outcomes contained within each spreadsheet.

The changes made following advice from USC are as follows:
