

In Remembrance - Professor Gavin Brown, AO FAA Corr FRSE

The Council and staff of the RiAus are deeply saddened by the recent passing of our Inaugural Director, Professor Gavin Brown. We would like to acknowledge the inspiration and drive he provided to the successful establishment of the organisation and we consider ourselves fortunate to have known and worked with him. All at the RiAus will miss his astute mind, dedication to the cause of science communication and sharp wit. Our heartfelt condolences go to his wife Diané, children Colin and Janet, and others close to him. A presence as large as Professor Brown's will be missed. His legacy will live on in our future endeavours.
