SSEAC Collaborative Research Grant 2016 Guidelines

The purpose of the SSEAC Collaborative Research Grants is to provide a pathway for new academic projects in/about Southeast Asia or for scholars who are engaging in the region for the first time. In addition to supporting new research initiatives, these grants offer an opportunity for experimenting with new research ideas and eliciting feedback on them from the SSEAC community. Preference will be given to projects that encourage interdisciplinary collaboration.

For the purposes of the grant, Southeast Asia is defined as Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, the Philippines, Singapore, Thailand, Timor-Leste and Vietnam.

The program provides grants of up to $20,000 for use in 2016-18. Two Collaborative Research Grants will be awarded in Round Two 2016.
