You can inspire the next generation

Are you a STEM professional or teacher wanting to make a difference? We’re looking for skilled volunteers with a passion for science, technology, engineering, and mathematics (STEM) education.

About the program
Scientists and Mathematicians in Schools (SMiS) is a national education program that facilitates ongoing partnerships between STEM professionals and teachers to enhance STEM education in schools. SMiS is partnering with the STEM Teacher Enrichment Academy and recruiting STEM professionals to partner with STEM Academy teachers.

For more information and to register for SMiS, visit www.csiro.au/SMiS.
