Our Continuing Undergraduate Merit Scholarship is offered to support current candidates of academic note in undergraduate study who have been admitted into the University of Sydney Business School and may not be receiving scholarship assistance.

The scholarship, established in 2012, is intended to assist with academic life and undergraduate performance at the Business School.

It is awarded to students who achieve one of the top ranked academic places in the Business School in their previous year of study.

VALUE AND TENURE

- The scholarship is valued at $6000 for one year. In 2014, the Business School awarded 12 scholarship places to top ranked students.
- The number of places offered in subsequent years will be published on the Business School’s website.
- The scholarship will be paid in two instalments of $3000; the first in late March and the second in late August (pending progression).
- The scholarship is tenable for one year only, until the selection process can be administered again in the following year.

ELIGIBILITY

- The scholarship is open to all current undergraduate coursework and honours students (local and international) who are enrolled in an undergraduate program administered by the Business School.
- You will be assessed on a minimum 48 credit points (PASS) coursework in the academic year prior to award.
- You need to be taking a standard full time coursework or honours enrolment in the year of award.
- Honours year students must be specialising in a business discipline to be eligible to receive the award.
- Candidates cannot be in receipt of any other primary scholarship assistance for their studies.
SELECTION
- Students compete for a scholarship place based on their Annual Average Mark (AAM) over 48 credit points in their University of Sydney Business School degree in the year prior to selection and award. No application is necessary.
- If two students are ranked for the final place with an identical (AAM), assessors will then compare the Weighted Average Mark (WAM) in each candidate’s degree.
- To receive the scholarship in the year it is awarded, you need to enrol in a standard full time load of 48 credit points (24 credit points per semester).
- Students who have been awarded the scholarship for one year can be considered again the following year.

ACCEPTANCE AND PROGRESSION
- The scholarship must be taken up in the semester it is offered and is only tenable in the year of award; it cannot be deferred.
- Recipients of the scholarship are required to maintain a 75% distinction average as a minimum in their first semester to receive the second instalment in Semester 2.
- Honours students are required to make acceptable progress in their honours program, as deemed by the supervisor.
- If you require a Leave of Absence, you must notify scholarship staff of the change to your enrolment.
- If you withdraw from your degree or take a Leave of Absence without the prior approval of scholarship staff, you will be liable to repay that semester’s funding.

CANCELLATION OF THE AWARD
The scholarship will be cancelled if you:
- are found to be in receipt of another primary value scholarship
- fail to achieve a 75% distinction average in the first semester in the year of award or have made unacceptable progress in your honours program
- fail to maintain a standard enrolment load of 48 credit points in the academic year the scholarship is awarded
- withdraw or take a Leave of Absence from your undergraduate degree without prior notification to the Business School scholarship staff.

Our students
Many of our recent graduates are testament to the fantastic career opportunities that await.
2013 Graduate Nick Hurditch now works as a Qantas consultant.
2012 Graduate Cecile Johnston now works as an Operations Research Analyst at Sydney Airport Corporation.
2002 Graduate Frederic Horst has worked as National Project Officer – Logistics and Synergies at Veolia Environmental Services, Manager of Government and Internal Relations at Qantas, Director of Network Development and Marketing at ACG Air Cargo Germany, and is currently Manager Special Projects at AirBridge Cargo.

Career opportunities
Aviation, particularly in combination with logistics, offers endless career opportunities within many key industries and employers including airlines, airports, aircraft manufacturers, investment banks, lessors, tourism businesses, logistics and freight companies, consultancies, regulators, and government agencies. Moreover, Aviation Management careers can be lucrative and rewarding, offering very attractive salaries and, depending on your employer, generous travel benefits.
