School of Medical Sciences
(Pharmacology)
First Semester Seminars
2011

Wednesday 2nd March to Wednesday 8th June, 12-1 pm
Teachers College Lecture Theatre 306
Seminar Organiser: Robert Vandenberg (robert.vandenberg@sydney.edu.au)

2nd March  Susie Mihailidou (Kolling Institute, RNSH)
Regulation of mineralocorticoid receptors: not just aldosterone

9th March  Renate Griffith (Department of Pharmacology, UNSW)

16th March  David Krimmer (Department of Pharmacology, USYD) (PhD talk)
The role of cigarette smoke in lung disease

23rd March  TO BE ADVISED

30th March  Elena Bagley (Brain and Mind Research Institute)
Drug-induced GABA transporter currents enhance GABA release and produce opioid withdrawal behaviours

6th April  Honours Program

13th April  Honours Program

20th April  TO BE ADVISED

27th April  TO BE ADVISED

4th May  Hilary Lloyd, Tina Hinton (Department of Pharmacology, USYD)
Ensuring Quality Graduates of Pharmacology: A National Survey of Pharmacology Teaching

11th May  Jamie Vandenberg (Victor Chang Cardiac Research Institute)
HERG K+ channel dysfunction and drug-induced cardiac arrhythmias

18th May  Chris Vaughan (Pain Management Research Institute, Kolling Institute, RNSH)
25th May  
Lars Ittner (Brain and Mind Research Institute)
Amyloid-beta and tau: partners in crime

1st June  
Gary Halliday (Discipline of Dermatology, School of Medicine, USYD)
Repair of ultraviolet radiation-induced oxidative DNA damage and chromatin remodeling in skin cancer

8th June  
Alana Scarf (Department of Pharmacology, USYD) (PhD talk)
