

Publications for Christhina Candido

2019

Candido, C., Thomas, L., Haddad, S., zhang, F., Mackey, M., Ye, W. (2019). Designing activity-based workspaces: satisfaction, productivity and physical activity. *Building Research and Information*, 47(3), 275-289. [More Information]

Candido, C., Thomas, L., Haddad, S., Zhang, F., Mackey, M., Ye, W. (2019). Designing activity-based workspaces: satisfaction, productivity and physical activity. *Building Research and Information*, 47(3), 275-289. [More Information]

Thai, P., Candido, C., Asumadu-Sakyi, A., Barnett, A., Morawska, L. (2019). Variation of indoor minimum mortality temperature in different cities: Evidence of local adaptations. *Environmental Pollution*, 246(March 2019), 745-752. [More Information]

2018

Reinhardt, D., Titchkosky, N., Wozniak-O'Connor, D., Watt, R., Bickerton, C., Cabrera, D., Candido, C. (2018). A Robotically Woven Ceiling Structure: Systems Reef. *ADR18: Annual Design Research Conference*, Sydney: Sydney University Press.

Tjondronegoro, D., Candido, C., zhang, F., Haddad, S. (2018). Chill out. A slightly warmer office won't make it too hot to think. *The Conversation*.

Reinhardt, D., Titchkosky, N., Wozniak-O'Connor, D., Watt, R., Bickerton, C., Cabrera, D., Candido, C. (2018). Design Research between Academia and Practice: Systems Reef $\frac{1}{2}$ Developing A Robotic, Carbon-Fibre Wound, Integrated Ceiling Structure. *ADR18: Annual Design Research Conference*, Sydney: Sydney University Press.

Foldvary Licina, V., Cheung, T., Zhang, H., de Dear, R., Parkinson, T., Arens, E., Chun, C., Schiavon, S., Luo, M., Brager, G., Candido, C., Deuble, M., Kim, J., et al (2018). Development of the ASHRAE Global Thermal Comfort Database II. *Building and Environment*, 142, 502-512. [More Information]

Reinhardt, D., Candido, C., Cabrera, D., Wozniak-O'Connor, D., Watt, R., Bickerton, C., Titchkosky, N., Houda, M. (2018). Onsite robotic fabrication for flexible workspaces: Towards design and robotic fabrication of an integrated responsive ceiling system for a workspace environment. *23rd International Conference on Computer-Aided Architectural Design Research in Asia: Learning, Prototyping and Adapting (CAADRIA 2018)*, Beijing: Association for Computer-Aided Architectural Design Research in Asia (CAADRIA).

Candido, C., Thomas, L., Zhang, F., Haddad, S., Mackey, M. (2018). The unvarnished truth about ABW. *Ecolibrium*, 17(6), 46-49.

2017

Candido, C., Wang, S., Croft, T., Zhang, F., Mackey, M. (2017). Can Activity-Based Working spaces increase worker's physical activity, perceived productivity and satisfaction? *PLEA*

2017 Edinburgh: Design to Thrive, Edinburgh: PLEA 2017.

Rupp, R., De Vecchi, R., Asmus, B., Candido, C., Ghisi, E. (2017). Conforto termico humano em escritorios com sistema central de condicionamento artificial em clima subtropical umido: aboradagem experimental vs analitica (Human thermal comfort in a HVAC office building located in human subtropical climate: field studies vs analytical approach). *Ambiente Construido*, 17(1), 111-123. [More Information]

Candido, C., Wang, S., Croft, T., Zhang, F., Mackey, M. (2017). Indoor Environmental Quality conditions in Activity-Based offices in green buildings. *PLEA 2017 Edinburgh: Design to Thrive*, Edinburgh: PLEA 2017.

Zhang, F., Haddad, S., Nakisa, B., Naim Rastgoo, M., Candido, C., Tjondronegoro, D., de Dear, R. (2017). The effects of higher temperature setpoints during summer on office workers' cognitive load and thermal comfort. *Building and Environment*, 123, 176-188. [More Information]

De Vecchi, R., Lamberts, R., Candido, C. (2017). The role of clothing in thermal comfort: how people dress in a temperate and humid climate in Brazil. *Ambiente Construido*, 17(1), 63-78. [More Information]

De Vecchi, R., Candido, C., de Dear, R., Lamberts, R. (2017). Thermal comfort in office buildings: Findings from a field study in mixed-mode and fully-air conditioning environments under humid subtropical conditions. *Building and Environment*, 123, 672-683. [More Information]

Kim, J., de Dear, R., Parkinson, T., Candido, C. (2017). Understanding patterns of adaptive comfort behaviour in the Sydney mixed-mode residential context. *Energy and Buildings*, 141, 274-283. [More Information]

2016

Candido, C., Kim, J., de Dear, R., Thomas, L. (2016). BOSSA: a multidimensional post-occupancy evaluation tool. *Building Research and Information*, 44(2), 214-228. [More Information]

Kim, J., Candido, C., Thomas, L., de Dear, R. (2016). Desk ownership in the workplace: The effect of non-territorial working on employee workplace satisfaction, perceived productivity and health. *Building and Environment*, 103, 203-214. [More Information]

Kim, J., de Dear, R., Parkinson, T., Candido, C., Cooper, P., Ma, Z., Saman, W. (2016). Field study of air-conditioning in residential buildings. *Windsor Conference 2016: Making Comfort Relevant*, Windsor: NCEUB Network for Comfort and Energy Use in Buildings.

Candido, C., Zhang, F., Kim, J., de Dear, R., Thomas, L., Stapasson, P., Joko, C. (2016). Impact of workspace layout on occupant satisfaction, perceived health and productivity. *Windsor Conference 2016: Making Comfort Relevant*, Windsor: NCEUB Network for Comfort and Energy Use in Buildings.

Zhang, F., de Dear, R., Candido, C. (2016). Thermal comfort during temperature cycles induced by direct load control events. *Windsor Conference 2016: Making Comfort Relevant*, Windsor: NCEUB Network for Comfort and Energy Use in Buildings.

Zhang, F., de Dear, R., Candido, C. (2016). Thermal comfort during temperature cycles induced by direct load control strategies of peak electricity demand management. *Building and Environment*, 103, 9-20. [More Information]

de Vecchi, R., Candido, C., Lamberts, R. (2016). Thermal history and comfort in a Brazilian subtropical climate: a 'cool' addiction hypothesis. *Ambiente Construido*, 16(1), 7-20. [More Information]

Parkinson, T., de Dear, R., Candido, C. (2016). Thermal pleasure in built environments: alliesthesia in different thermoregulatory zones. *Building Research and Information*, 44(1), 20-33. [More Information]

2015

de Dear, R., Kim, J., Candido, C., Deuble, M. (2015). Adaptive Thermal Comfort in Australian School Classrooms. *Building Research and Information*, 43(3), 383-398. [More Information]

de Vecchi, R., Sorgato, M., Pacheco, M., Candido, C., Lamberts, R. (2015). ASHRAE 55 adaptive model application in hot and humid climates: the Brazilian case. *Architectural Science Review*, 58(1), 93-101. [More Information]

2014

de Vecchi, R., Sorgato, M., Pacheco, M., Candido, C., Lamberts, R. (2014). Application of the adaptive model proposed by ASHRAE 55 in the Brazilian climate context: raising some issues. *8th Windsor Conference: Counting the Cost of Comfort in a Changing World*, Windsor, UK: NCEUB Network for Comfort and Energy Use in Buildings.

de Dear, R., Arens, E., Candido, C., Brager, G., Zhang, H., Toftum, J., Zhu, Y., Kurvers, S., Leyten, J., Sekhar, C., et al (2014). Indoor temperatures for optimum thermal comfort and human performance - reply to the letter by Wyon and Wargocki. *Indoor Air*, 24(5), 554-555. [More Information]

de Dear, R., Kim, J., Candido, C., Deuble, M. (2014). Summertime thermal comfort in Australian school classrooms. *8th Windsor Conference: Counting the Cost of Comfort in a Changing World*, Windsor, UK: NCEUB Network for Comfort and Energy Use in Buildings. [More Information]

Zhang, F., de Dear, R., Candido, C. (2014). Thermal Comfort during Direct Load Control Events in University Lecture

Theatres. *13th International Conference on Indoor Air Quality and Climate (Indoor Air 2014)*, Hong Kong: The University of Hong Kong.

2013

Parkinson, T., Candido, C., de Dear, R. (2013). 'Comfort Chimp': a Multi-Platform IEQ Questionnaire Development Environment. *CLIMA 2013: 11th REHVA World Congress and 8th International Conference on IAQVEC*, Prague, Czech Republic: Society of Environmental Engineering.

Saman, W., Boland, J., Pullen, S., de Dear, R., Soebarto, V., Miller, W., Pocock, B., Belusko, M., Bruno, F., Whaley, D., Candido, C., Deuble, M., et al (2013). *A framework for adaptation of Australian households to heat waves*. Gold Coast, Queensland: National Climate Change Adaptation Research Facility NCCARF.

Kim, J., de Dear, R., Candido, C., Zhang, H., Arens, E. (2013). Gender differences in office occupant perception of indoor environmental quality (IEQ). *Building and Environment*, 70, 245-256. [More Information]

Candido, C., de Dear, R., Thomas, L., Kim, J. (2013). Introducing BOSSA: The Building Occupants Survey System Australia. *The Future of HVAC 2013*, Melbourne, Vic, Australia: Australian Institution of Refrigeration, Airconditioning and Heating.

de Dear, R., Akimoto, T., Arens, E., Brager, G., Candido, C., Cheong, D., Li, B., Nishihara, N., Sekhar, C., Tanabe, S., et al (2013). Progress in thermal comfort research over the last twenty years. *Indoor Air*, 23(6), 442-461. [More Information]

Candido, C. (2013). Retrofitting Comfort and Indoor Environmental Quality: Can Improved Levels of Occupant Comfort, Human Health, Well-Being and Productivity Be Achieved from Existing Buildings? In Richard Hyde, Nathan Groenhout, Francis Barram and Ken Yeang (Eds.), *Sustainable Retrofitting of Commercial Buildings: Warm Climates*, (pp. 178-185). Abingdon, Oxon: Routledge imprint of Taylor & Francis. [More Information]

de Dear, R., Candido, C., Saman, W., Soebarto, V., Boland, J., Belusko, M., Bennetts, H., Ridley, B., Deuble, M. (2013). The impact of climate change on external and internal design conditions for air conditioning loads estimation. *The Future of HVAC 2013*, Melbourne, Vic, Australia: Australian Institution of Refrigeration, Airconditioning and Heating.

de Dear, R., Nathwani, A., Candido, C., Cabrera, D. (2013). The next generation of experientially realistic lab-based research: The University of Sydney's Indoor Environmental Quality Laboratory. *Architectural Science Review*, 56(1), 83-92. [More Information]

Kim, J., Deuble, M., Candido, C., de Dear, R. (2013). Thermal Comfort in a Large Property Portfolio: What can we do before surrendering to AC? *CLIMA 2013: 11th REHVA World Congress and 8th International Conference on IAQVEC*, Prague, Czech Republic: Society of Environmental Engineering.

2012

de Dear, R., Candido, C. (2012). An Adaptive Thermal Comfort Policy for a Geographically Dispersed Property Portfolio; Deciding When and Where to Air-Condition in a Warm Climate

Zone. *7th Windsor Conference*, London, UK: Network for Comfort and Energy Use in Buildings.

Candido, C., de Dear, R., Thomas, L., Kim, J., Parkinson, T. (2012). BOSSA - Buildings Occupants Survey System Australia. *The 46th Annual Conference of the Architectural Science Association - Building on Knowledge: Theory and Practice*, Brisbane: Griffith University.

Candido, C., de Dear, R., Ohba, M. (2012). Effects of artificially induced heat acclimatization on subjects' thermal and air movement preferences. *Building and Environment*, 49(1), 251-258. [More Information]

Candido, C., de Dear, R. (2012). From thermal boredom to thermal pleasure: A brief literature review. *Ambiente Construido*, 12(1), 81-90.

Parkinson, T., de Dear, R., Candido, C. (2012). Perception of Transient Thermal Environments: Pleasure and Alliesthesia. *7th Windsor Conference*, London, UK: Network for Comfort and Energy Use in Buildings. [More Information]

Candido, C. (2012). Retrofitting Comfort and Indoor Environmental Quality: Can Improved Levels Of Occupant Comfort, Human Health, Well-Being and Productivity be Achieved From Existing Buildings? In Richard Hyde (Eds.), *Bioclimatic design for retrofitting commercial buildings in warm climates*. UK: Earthscan.

Nathwani, A., de Dear, R., Candido, C. (2012). The Missing Link - The Next Generation IEQ Lab with Ultimate Flexibility. *7th Windsor Conference*, London, UK: Network for Comfort and Energy Use in Buildings.

de Vecchi, R., Candido, C., Lamberts, R. (2012). Thermal history and its influence on occupants' thermal acceptability and cooling preferences in warm-humid climates: a new desire for comfort? *7th Windsor Conference*, London, UK: Network for Comfort and Energy Use in Buildings.

2011

Candido, C. (2011). Adaptive Comfort: Passive Design for Active Occupants. *Environment Design Guide*, (EDG 69 CC), 1-5.

Candido, C., de Dear, R., Lamberts, R. (2011). Combined Thermal Acceptability and Air Movement Assessments in a Hot Humid Climate. *Building and Environment*, 46(2), 379-395. [More Information]

Candido, C., Lamberts, R., de Dear, R., Bittencourt, L., de Vecchi, R. (2011). Towards a Brazilian Standard for Naturally Ventilated Buildings: Guidelines for Thermal and Air Movement Acceptability. *Building Research and Information*, 39(2), 145-153. [More Information]

2010

Candido, C., de Dear, R., Lamberts, R., Bittencourt, L. (2010). Air movement acceptability limits and thermal comfort in Brazil's hot humid climate zone. *Building and Environment*, 45(1), 222-229. [More Information]

Candido, C. (2010). *Air movement acceptability limits in static indoor environment*, March 2010, (pp. 1 - 30). Tokyo, Japan:

Tokyo Polytechnic University.

Candido, C., Lamberts, R., Bittencourt, L., de Dear, R. (2010). Aplicabilidade dos limites da velocidade do ar para efeito de conforto termico em climas quentes e umidos. *Ambiente Construido*, 10(4), 59-68.

Candido, C., de Dear, R., Lamberts, R., Bittencourt, L. (2010). Cooling exposure in hot humid climates: are occupants 'addicted'? *Architectural Science Review*, 53(1), 59-64. [More Information]

Batista, J., Lamberts, R., Candido, C. (2010). Desempenho das estrategias bioclimaticas de projeto: inercia termica e ventilacao natural. In Roberto Lamberts, Enedir Ghisi, Claudia Donald Pereira, Juliana Oliveira Batista (Eds.), *Casa Eficiente Bioclimatologia e Desempenho Termico*, (pp. 37-57). Florianopolis: Editora da Universidade Federal de Santa Catarina.

Andreasi, W., Lamberts, R., Candido, C. (2010). Thermal Acceptability Assessment in Buildings Located in Hot and Humid Regions in Brazil. *Building and Environment*, 45, 1225-1232. [More Information]

Candido, C., Lamberts, R., de Dear, R., Bittencourt, L. (2010). Towards a Brazilian standard for naturally ventilated buildings: guidelines for thermal and air movement acceptability. *6th Windsor Conference: Adapting to Change: New Thinking on Comfort*, London: Network for Comfort and Energy Use in Buildings.

2009

Candido, C., de Dear, R., Lamberts, R., Bittencourt, L. (2009). Air movement preference and thermal comfort: A survey in classrooms during summer season in Brazil. *PLEA 2009 - Architecture Energy and the Occupants Perspective*, Canada: Les Presses de l'Universite Laval.

Candido, C., Lamberts, R., Bittencourt, L., de Dear, R. (2009). Aplicabilidade dos limites da velocidade do ar para efeito de conforto termico em climas quentes e umidos. *X Encontro Nacional de Conforto no Ambiente Construido*, Natal, Brazil: ANTAC.

Hyde, R., Rajapaksha, I., Groenhout, N., Barram, F., Shahriar, A., Candido, C., Rajapaksha, U. (2009). Towards a methodology for retrofitting commercial buildings using bioclimatic principles. *43rd Annual Conference of the Australian and New Zealand Architectural Science Association ANZAScA 2009*, Australia: University of Tasmania.

2008

Candido, C., Lamberts, R., Bittencourt, L., de Dear, R. (2008). Aceitabilidade do movimento do ar e conforto térmico em edificações naturalmente ventiladas em Maceió/AL (Air movement acceptability inside naturally ventilated buildings in Maceio city). *XII Encontro Nacional de Tecnologia do Ambiente Construido - ENTAC (12th National Meeting on Technology of Built Environment)*.

Batista, J., Lamberts, R., Candido, C. (2008). *Ecohome - Living Environment Bioclimatic Laboratory*. Florianopolis, Brazil: Federal University of Santa Catarina.

Bittencourt, L., Candido, C. (2008). *Introducao a Ventilacao Natural*. Maceio: EDUFAL.

Candido, C., de Dear, R., Lamberts, R., Bittencourt, L. (2008). Natural ventilation and thermal comfort: air movement acceptability inside naturally ventilated buildings in Brazilian

hot humid zone. *5th Windsor Conference: Air-Conditioning & The Low Carbon Cooling Challenge*, London: Network for Comfort and Energy Use in Buildings.

2007

Candido, C., Bittencourt, L., Sacramento, A. (2007). Building Regulation and thermal comfort: The influence of opening typology on natural cooling inside office buildings. *BS 2007 Building Simulation*, China: IBPSA.

Bittencourt, L., Sacramento, A., Candido, C., Leal, T. (2007). Estudo do desempenho do peitoril ventilado para aumentar a ventilação natural em escolas de Maceio/AL. *Ambiente Construido*, 7(3), 59-69.

Bittencourt, L., Candido, C., Batista, J., Leal, T., Sacramento, A. (2007). *NPM Laboratory - Bioclimatic design and hot-humid climates (Computational fluid dynamics)*. Federal University of Alagoas, Brazil: Federal University of Alagoas. Public (University building).
