Now it will be clear then. You will overcome.

Why seed did not fall on stony ground. Now it is growing.

The Resurrections of Thomas Müntzer

Preface
The lords themselves throw revolt, the revolutionary and anti-authoritarian preaching of Miintzer featured in the opening of the revolt. Against Miintzer's 1524 Allstedt preachment, the devil, who remembered the greatest prophet, was smite. Luther, whose exhortations and sermons to the peasants and serfs castigated and repudiated the princes' armies, was brought around. His exhortations and sermons were castigated and repudiated by the princes' armies. The revolt was predetermined to end in destruction and commandment, as the princes' armies were castsivated and repudiated the revolt. The princes' armies were castsivated and repudiated the revolt, and the revolt was predetermined to end in destruction and commandment.

The revolution in consciousness is political and social in two respects. The church and its corporate structures, as well as society, are in the forefront of the struggle. The church is a source of authority and control, and its power extends into all areas of life. The struggle for freedom and liberation involves not only the overthrow of political and economic structures, but also the transformation of consciousness. This transformation requires a critical examination of the role of the church, as well as the development of alternative frameworks for understanding and acting upon the world. In the struggle for revolution, which is inseparable from the struggle for freedom, a rejection of the church’s authority and a commitment to a new, more just social order are essential. Without this, the revolution will not be complete.

can
things improve?

I say this openly, so Luther asserts
must be rebellious. So be it!

This call to undo the iniquitous pact between the sovereign and the flaying and fleecing of the creatures and the poor was resurrected in 1789, 1848, 1919, 1968, and many other less attention-grabbing moments. Whether they will be heard, whether they may still be heard, there is no way to know. I wish to probe whether the specters of rebellion can rise again, whether new mountains of hope can be erected. Whether they will be heard, another heated discussion of doomsday...
