MEMORY

- This test should be done if the subject failed to recall one or more items above. If all items were recalled, skip the test and score 5. If only part was recalled start by ticking items recalled in the shadowed column on the right-hand side; and then test not recalled items by telling the subject “Ok, I’ll give you some hints: was the name X, Y or Z?” and so on. Each recognised item scores one point, which is added to the point/s gained from the previous memory recall section.
