We acknowledge the traditional custodians and law of the Country on which the University of Sydney campuses stand. We pay our respects to those who have cared and continue to care for Country.
BUSINESS AT THE UNIVERSITY OF SYDNEY

In an age of globalisation, disruption and rapid technological change, there has never been a more exciting time to pursue a career in business.

With a wealth of opportunity across many diverse industries and specialisations, a degree in business empowers you to carve your own path to success in the corporate, not-for-profit or government sectors, or by building your own start-up. The University of Sydney Business School is at the forefront of global business and management education.

With a commitment to challenging the notions of ‘business as usual’, we are questioning the norm and discovering new ways of doing things.

We will equip you with the technical and personal skills to drive change with positive economic, social and environmental impacts and prepare you for an exciting future in business.

Learn from academics who are leaders in their field

Study in our ultra-modern Abercrombie Building

International accreditations from EQUIS and AACSB International

320,000 alumni to connect you with a worldwide network

1st in Australia and 5th in the world for graduate employability¹

Top 20 in the world in Accounting and Finance²

Top 40 in the world in Business and Management Studies²

1. QS Graduate Employability Rankings 2019 2. QS World University Rankings by Subject 2018
We recognise that the future of work will be very different, so it’s our ambition that every University of Sydney student will complete their degree with the confidence and ability to think critically, collaborate productively and have a positive impact in the world.

By studying one of our undergraduate courses you’ll have the opportunity to:
- gain expertise in your primary field of study, learning from leaders in their field
- sharpen your broader skills (eg, communication, digital literacy and inventiveness) and acquire complementary expertise in a second field to develop the capability to work across cultural boundaries, in Australia and around the world
- deepen your expertise and develop skills in interdisciplinary collaboration through real-world industry, community, entrepreneurship and research projects.

As a graduate you will have the capabilities to tackle whatever challenges and opportunities lie in the future.

sydney.edu.au/ug-experience
To keep pace with these rapid changes in jobs and careers, we have reimagined our degrees and are updating the way we prepare our students for the future of work. You have more opportunities to gain real-world and global experiences than ever before. Our degrees, developed in partnership with industry leaders, will enhance your critical thinking as you apply problem-solving skills to situations you will likely encounter once you graduate.

We offer a broad range of majors essential for tomorrow’s leaders. You’ll be exposed to relevant, cross-disciplinary projects to help prepare you for a dynamic and agile business career. Outside the classroom you can gain first-hand insights into contemporary business practice by working for a leading firm, with placements in Australia and around the world.

Today’s school students can expect to change jobs at least seven times over the course of their careers, and five of those jobs don’t even exist yet. The World Economic Forum estimates that 35 percent of the skills currently needed to excel in a job will be different in five years.

““I find case studies and practical problem solving to be the most interesting part of my learning. It is really satisfying being able to apply knowledge to actual scenarios, which gives me an insight into what my future career might look like.”

Rebecca Findlay
Bachelor of Commerce
Majors: Accounting and Finance

“We don’t know exactly how the world will look when our students graduate, so we are preparing them with the skills they need to approach the changes they will face. Our first-year core unit focuses on teaching business in a way that is grounded in the real world, with an emphasis on critical thinking and problem solving. These tools will give our students the confidence they need throughout their degree and as they enter the workforce.”

Dr Steven Hitchcock
Lecturer, Future of Business

Foundations for success
Our units of study have been specifically designed to prepare you for the contemporary workforce, equipping you with leadership and entrepreneurial skills, as well as the tools to develop a global mindset.

New core units
Future of Business
Gain future-focused insights into the study and practice of business. Through the exploration of global megatrends, you will develop the knowledge to approach the challenges modern business leaders face.

Leading and Influencing in Business
You will be introduced to the knowledge and skills required to build your career and successfully lead and influence people in an increasingly complex world of work. Take the theory you have learned from our interactive online learning materials into the classroom and apply it to projects that will help you develop effective interpersonal skills and better understand yourself and others.

Major capstone units
Real-world projects in your area of specialisation
You will undertake capstone units in your final semester of study for each major to further bridge the gap between theory and practice. Our scholars work with our industry partners and alumni to bring practical experiences into the classroom. You will apply the skills and knowledge gained throughout your major to a semester-long project to ensure your career-readiness.
A WORLD OF OPPORTUNITY

When you join the Business School, your student experience goes far beyond the classroom. With a range of opportunities to become involved in university life and gain career-relevant experience before you graduate, you’ll be equipped to tackle the evolving landscape of business.

Business School Careers and Employability Office

We offer our students a specialised service from a team of dedicated experts at our Careers and Employability Office.

We are committed to helping you achieve your career aspirations and equip you with the skills to manage and thrive in your career.

Our range of services, programs and events are available to Business School students throughout the year to assist you in your career decision making and forge important links with employers. We provide self-assessment resources to help you identify your skills and attributes to assist in matching with appropriate roles and employers.

Career advice
Visit us at our Careers and Student Experience Lounge to have your resume reviewed or pick up employer booklets and industry information.

Employers on campus
Network with top graduate recruiters at lunchtime events, careers workshops and guest lectures.

Skills workshops
Attend workshops on all aspects of the career planning and job search process to launch your business career.

Career consultations
You can book an appointment with one of our careers consultants to discuss your career path, choice of majors, interview techniques, application advice and much more.

− sydney.edu.au/business/careers

Mentoring and support
Take advantage of mentoring and support opportunities that will enhance your experience inside and outside the classroom, such as our:
− Peer Mentoring Program
− Business Alumni Mentoring Program
− LUCY Mentoring Program
− Peer-Assisted Study Sessions (PASS)
− Maths in Business

To find out more, visit:
− sydney.edu.au/business/study/services

Scholarships
We offer a wide range of scholarships throughout the year, including equity, high achiever and overseas exchange scholarships. Check our website to see what you might be eligible for.
− sydney.edu.au/business/scholarships

Clubs and societies
Student societies play an invaluable role in enriching your university experience. At the University of Sydney, there are more than 200 to choose from. By joining a club, you’ll build friendships and begin establishing professional networks that can open doors for you after university. There are also subject-related societies that can assist you in your academic studies.

− sydney.edu.au/student-clubs

“Employers are looking for graduates who can demonstrate leadership potential, resilience, creative problem solving, communication and teamwork skills. At the CEO we are passionate about providing students with innovative careers services and employability programs to not only develop such skills, but learn how to articulate them in their transition from university to their first career.”

Grozdana Maric Manalo
Careers Services Manager (Education)
Experience work and study overseas while you complete your degree. We facilitate a wide variety of opportunities to deepen your understanding of how business impacts Australia and the world.

**Industry Placement Program**

We offer you the chance to work for leading firms, small to medium enterprises, not-for-profit, government and non-government organisations, social enterprises and community organisations during your degree. Undertake a placement in Sydney, Canberra and regional Australia, and around the world across Europe, Asia, North America and South America.

You will receive credit towards your degree, while gaining the industry experience employers are looking for in graduates. Placement scholarships are available for many of these experiences.

− sydney.edu.au/business/ipp

“The opportunity to immerse myself within the Tourism Australia team in Los Angeles allowed me to develop my marketing skills, while opening my eyes to many career avenues in marketing, communications and PR.”

Jessica Skinner
United States Industry Placement Program participant

**Study tours and immersion programs**

**Shanghai Business Immersion Program**

Spend six weeks working with one of our industry partners in a global centre of business and trade.

**International Immersion in Singapore**

In this short-term research program you will spend two weeks in Singapore working in teams to understand and analyse an important demographic trend that impacts businesses, societies and markets.

**US Future of Business Study Tour**

A unique program delivered in collaboration with Boston Consulting Group that includes a short study program at New York’s NYU Stern School of Business and Washington’s Georgetown University.

**China Future of Business Study Tour**

Explore Suzhou, Shanghai and Nanjing, experience daily language and Chinese culture classes, and have networking and mentoring opportunities with local business executives.

**India Study Tour**

Engage with diplomacy awareness and global perspective in New Delhi and other cities.

**Philippines Study Tour**

Immerse yourself in responsible business in one of Southeast Asia’s fastest emerging markets.

**Remote and Rural Enterprise**

Engage with social enterprises in remote and rural Australia and Southeast Asia to develop solutions for businesses within these communities.

To find out more about our programs, visit:
− sydney.edu.au/business/opportunities

**Study abroad and exchange**

Combine study and travel and make the world your campus. You can spend a few weeks, one semester or a full year overseas, experiencing new culture while earning credit towards your degree. Through our international exchange program, you can study at one of our 300 partner universities in 42 countries around the world.
− sydney.edu.au/studyabroad

**“The opportunity to immerse myself within the Tourism Australia team in Los Angeles allowed me to develop my marketing skills, while opening my eyes to many career avenues in marketing, communications and PR.”**

Jessica Skinner
United States Industry Placement Program participant

“Working closely with the Business School is a priority for us in order to attract the best graduate talent that is out there. Placements are a fantastic opportunity for students to come into the industry and get a clear vision of what a graduate role and longer term career path looks like. They’re a great way to make a really informed career choice.”

Dragi Ristevski
Managing Director, Investment Banking Team
Head of Sponsors, Healthcare and Services, Citi

“It’s hard to put into words how much I learned during my two weeks in Singapore. I gained so much from observing my surroundings and talking with local residents, academics, social entrepreneurs and policymakers alike. The program developed my critical thinking skills to the next level and taught me to think in new ways.”

Oliver Pang
International Immersion in Singapore participant
“I chose the University of Sydney because I was confident my degree would provide me with the skills I need to enter a successful career when I graduate. My classes have been truly engaging and intellectually stimulating. Business is at the core of our society and the depth of content in this field is extraordinary.

“Unlocking these considerable banks of knowledge has been the most enlightening part of my degree so far. Ascribing business and economic theory to things we experience in our everyday lives has taught me to think differently about the world.”

_Xavier Eales_
Bachelor of Commerce/Bachelor of Laws
Major: Finance

“When I left Norway to come to the University of Sydney, I didn’t know which career I wanted to pursue. I had an interest in business, and the opportunity to tailor my degree towards my passions in the Bachelor of Commerce was a big appeal. I also knew that the Business School had a great reputation for teaching excellence, so it was the ideal choice.

“I would love to work in marketing after I graduate, especially digital marketing. I am interested in a career that will give me the chance to be creative and provide opportunities to develop my skills and work overseas.”

_Jenny Stokkevåg Berg_
Bachelor of Commerce
Major: Marketing
Located in a prime position on the University’s Darlington Campus, the Abercrombie Building is the ideal place for our community to collaborate. Two-thirds of the floor space is devoted to rooms where you can tap into the latest technology.

Our purpose-built hub is a place for students who will innovate the next world-changing, digital application, academics who are contributing solutions to today’s global business challenges, and alumni who are mentoring the company directors of tomorrow.

− sydney.edu.au/business/abercrombie

Welcome to the Abercrombie Building, our purpose-built home.

177 offices, 203 bike racks, a 550-seat lecture theatre, 3 x 300-seat lecture theatres, 8 x 100-seat case study lecture theatres, 35 seminar rooms, 118 steps on the spiral staircase, 15 student lounges, 3 learning hubs, 7 learning studios, 4032-seat capacity across all 54 teaching spaces, a dedicated careers counter and the Abercrombie Terrace Café.
“Believe you can and you’re halfway there.”

Theodore Roosevelt (1858–1919)
Statesman, author and 26th President of the United States (1901-09)
BACHELOR OF COMMERCE

Our Bachelor of Commerce is designed to give you what you need for a futureproof career in the business world. The program combines theory and practice so you gain the necessary analytical, technical and practical skills to apply your knowledge effectively in your career. Building on this foundation, you can choose either a major and a minor or two majors.

Our degree will provide you with a solid education in areas such as accounting, management and business analytics, as well as effective interpersonal and leadership skills.

BACHELOR OF COMMERCE

Our Bachelor of Commerce is designed to give you what you need for a futureproof career in the business world.

YOUR STUDY OPTIONS

Whatever your interests and passions, our degrees will allow you to explore them. From finance to science, languages and marketing, you can create your own path with one of our flexible degrees.

Our undergraduate degrees

Bachelor of Commerce
Our flagship degree offers you a wide variety of subjects and majors to prepare you for your future in business. See page 19.

Bachelor of Commerce/Bachelor of Advanced Studies
This new combined degree allows you to explore your interest in business alongside study in a range of other areas, and complete advanced coursework and projects in your final year. See page 22.

Bachelor of Commerce/Bachelor of Advanced Studies (Honours)
Undertake advanced coursework and complete a research thesis by completing honours in your fourth year of study of our Bachelor of Commerce and Bachelor of Advanced Studies.

- sydney.edu.au/business/honours

Our combined degrees

Pursue your interest in business alongside law, computing or engineering with one of our combined degrees.

Bachelor of Commerce/Bachelor of Laws

Bachelor of Advanced Computing/Bachelor of Commerce

Bachelor of Engineering Honours/Bachelor of Commerce

“Honours allows you to build your own research project focused on your strengths and preferred subject area, and carry out the project for the duration of the year. Honours gave me skills such as project and stakeholder management, which have already been invaluable in my graduate position with Westpac.”

Georgia Wade
Bachelor of Commerce (Honours)
Major: Work and Organisational Studies

Page 18
By tailoring your degree, you can focus your study on a specific professional qualification or explore different subjects and interests to gain a broad and versatile business education with skills in areas that will benefit your career.

Business majors
You will complete at least one of the following majors in the Bachelor of Commerce:
- Accounting
- Banking
- Business Analytics
- Business Information Systems
- Business Law
- Finance
- Industrial Relations and Human Resource Management
- International Business
- Management
- Marketing
- Or a program in Professional Accounting

A minor or second major can be taken from these options, or from the shared pool (see the shared pool of majors and minors on page 26).

“We encourage our students to see the first day in our classroom as the very first day of their careers.

“We offer many exciting opportunities to engage with private, public and not-for-profit organisations, and grapple with the challenges faced by business leaders. These opportunities are part of developing the leadership skills that are signatures of the University of Sydney Business School.”

Professor Rae Cooper
Associate Dean (Programs)
Make the most of your study by combining a Bachelor of Commerce with a Bachelor of Advanced Studies.

Over four years, you will:
- design your own degree by combining majors from a range of disciplines
- complete a second major from your primary study area or the shared pool of majors and minors
- complete advanced coursework or complete an honours project
- work on real-world industry, community and research challenges.

The combined Bachelor of Advanced Studies gives you the flexibility to design your own degree and can be taken in combination with our Bachelor of Commerce.

Course details

The ability to align my interests with my studies really drew me towards the combined Bachelor of Commerce and Bachelor of Advanced Studies. I am not limited to studying business but able to explore other areas I’m passionate about. Being able to study design alongside marketing provides a platform for me to fuse my creativity and design thinking and apply these skills in a variety of business situations.”

**BECOME A DALYELL SCHOLAR**

For high-achieving students with an ATAR (or equivalent) of 98+, the Dalyell Scholars program provides access to a range of enrichment opportunities that will challenge you in the company of your most promising and talented peers.

As a Dalyell Scholar, you can tap into the rich interdisciplinary depth and breadth on offer at the University, drawing on peer and academic leadership and professional expertise to become part of our global network of leaders.

Named after Elsie Jean Dalyell OBE (1881-1948), a distinguished medical graduate of the University, Dalyell Scholars will have the opportunity to collaborate and network with like-minded peers.

In addition to completing distinctive Dalyell units of study, you will have access to opportunities including:
- accelerated learning options, such as early access to advanced units of study
- tailored mentoring and professional skills development workshops to enhance your study and career opportunities
- international experiences to develop your global perspective, including a $2000 global mobility scholarship.

To study as a Dalyell Scholar in our Bachelor of Commerce/Bachelor of Advanced Studies entry is by UAC preference or invitation. Within our Bachelor of Commerce or one of our combined degrees, entry to the program is by invitation only.

**Creating the next generation of business leaders**

We will connect you with other Dalyell Scholars within the Business School and across the University, through events, workshops, mentoring and masterclasses, specifically designed for the program.

**Dalyell insights**

Deepen your understanding and gain new perspectives on areas that relate to your studies and future career. Our interactive Dalyell Scholars’ masterclasses cover topics like innovation and communicating with influence, and have been presented by leading experts such as:
- James O’Loghlin, corporate speaker, longstanding media commentator, comedian, TV and radio presenter and the author of Innovation is a State of Mind
- Dr Tim Southommasane, Race Discrimination Commissioner for the Australian Human Rights Commission.

**Mentoring program**

Start to build your professional network while at university with our extensive Dalyell Scholars mentoring program. Gain lessons, insights and advice from senior high-achieving students, academics, and alumni from the Business School. This structured program will give you insights into the student experience, scholarship and intellectual endeavour, transitioning to your career, and community and civic engagement.

**Professional skills workshops**

Learn from thought leaders and industry experts on how to leverage your intellectual and personal strengths for maximum impact and career success. Be ready for workplaces of the future by developing the key competencies and techniques you will need to be agile in dynamic business contexts.

“...The accelerated coursework and unique Dalyell units provide the sort of challenges I am looking for, while giving me the opportunity to interact with other inspiring students in the program. I’ve always liked extending the limits I set myself and the Dalyell Scholars program offers the perfect path for me to do this.”

**Charlotte Trent**

Bachelor of Commerce/Bachelor of Advanced Studies (Dalyell Scholar)

Majors: Business Law and Finance
**FOLLOW YOUR INTERESTS. ALL OF THEM.**

Combine your interests from more than 100 study areas through our shared pool of majors and minors.

The shared pool allows you to explore a wide range of study areas with your degree as you acquire multidisciplinary knowledge and critical analytical skills that complement your business major.

Choose your second major from any of the listed options to combine your passion for business with another area of interest. Most of the majors listed in the shared pool can also be taken as minors.

"Commerce gave me the opportunity to combine my passions for economics and mathematics. The breadth of subjects is equipping me with a wide knowledge of several industries and specialisations, which has helped forge my understanding of what I want to do."

ACCOUNTING

Accounting is the ‘language of business’, providing organisations with information they need to make key business decisions relating to financial performance.

Your learning will extend beyond balance sheets and budget preparation as you develop the practical and analytical skills that will allow you to understand and interpret important financial information.

Wherever there is a need for sharp accounting knowledge and business skills, our accounting graduates are in demand.

What will you learn?

- Analyse and record business financial transactions
- Allocate costs and prepare budgets and other reports to inform operational and strategic decisions
- Prepare and audit financial statements in line with international accounting and auditing standards
- Apply analytical skills to understand and appraise the value of financial information

Completing the audit

Take an in-depth look at the process of auditing by applying the theory you’ve learned to an audit of real corporate financial reports. Our capstone unit, Accounting and Auditing in Practice, will give you an overview of the audit process within the context of Australian Auditing Standards, and equip you with practical skills you will take with you into the field of accounting.

Careers

- Auditing and assurance
- Financial analyst
- Internal audit and risk
- Management accountant/analyst
- Financial accounting

"One of the reasons I decided to study at the Business School is the flexibility. I have a wide variety of majors to choose from and the course flexibility means I can also combine subjects from other faculties and schools with the Bachelor of Commerce."

Muhammad Rehan Rana
Majors: Accounting and Business Information Systems

BANKING

Banks play a critical role in our globalised economy, providing financial services to business and individuals, and facilitating sustainable economic growth.

Develop a deep understanding of how banks function in domestic and international financial systems, including an analysis of the activities, roles, and regulation of commercial and investment banks.

As technological and financial innovation rapidly evolves, graduates with specialised knowledge in this area are highly sought after in the banking industry.

What will you learn?

- Understand the role of banks
- Expertise in bank management and risk management
- How to measure and manage financial risk
- Analysis of monetary policy
- Communication of financial information

Careers

- Commercial and investment banking
- Financial services
- Consulting
- Risk management
- Financial industry regulation
- Central banking

“Studying banking helped me to gain strong data management and financial analysis skills. I’ve had the chance to dive into the banking world and enrich my view of financial operations, which has also really complemented my marketing major. I feel empowered with a competitive and comprehensive skill set for my future career.”

Alexander Zeyu Shu
Majors: Banking and Marketing
Through this course, you will learn to scientifically analyse real data to deliver meaningful business models that enhance operations and inform business decisions.

With a vast amount of data available in today’s business environment, people skilled to realise its potential are in high demand around the world.

**What will you learn?**
- Use of statistical software to analyse real datasets
- How to mathematically develop problem solving models
- Methods for tasks including credit scoring, market segmentation, consumer behaviour modelling and product positioning
- Communication of business intelligence
- Machine-learning methods

**Become an in-demand data expert**
Businesses are inundated with data and information – this is why they need analytics experts to analyse and model this data to help them make better decisions.

With a global shortage of quantitative analysts, our business analytics major will give you a head start over other graduates in the fast-growing areas of online analytics, data mining, customer analytics and business intelligence.

Use data to discover new insights and gain a deeper understanding of business performance to drive future planning.

“With an influx of data and rapid technological advancement, I saw the field of business analytics as an exciting area in which to specialise. Coursework in the business analytics major often presents us with real business problems and involves using datasets from actual businesses to solve issues.”

*Cindy Ngo*
Majors: Business Analytics and Marketing
