Rural Health is established in Broken Hill.

The School of Rural Health (Broken Hill) is created to support rural and remote health in Australia.

From 1935 to 1948, many universities in Australia expanded their medical schools.

The University Centre for Rural Health opens at Nepean Hospital, St Leonards.

The Sydney School of Public Health begins operation with 17 students, offering a three-year curriculum leading to a Licence in Public Health.

The Sydney Dental School opens as part of the University of Sydney, at Westmead Hospital.

The Faculty of Dentistry at the University of Sydney teaches courses in:

− The Sydney Pharmacy School
− Pharmacy
− The University of Sydney
− School of Medical Sciences
− School of Medicine
− School of Dentistry
− School of Pharmacy
− Nursing and Midwifery
− Susan Wakil School of Health Sciences
− Shoalhaven Clinical School

International locations
