The purpose of the Commitment Statement is to find out about your interest in, and commitment to animal health and welfare and a career in veterinary practice. You may be able to provide evidence of this through your family background, work (including school work experience, part-time jobs and voluntary work) and special interests.

Submission of a Commitment Statement by the due date is a strict requirement for the purpose of meeting eligibility criteria for both local and international applicants to the Bachelor of Veterinary Biology/Doctor of Veterinary Medicine for 2020 intake. Commitment Statements submitted after the due date will not be considered.

#### Commitment Statement submission

**Domestic applicants**  
along with International Applicants sitting the NSW HSC and applying through UAC

Upload the completed forms and documentation to the UAC portal by the **22<sup>nd</sup> of November 2019**

#### International applicants

Off-shore and Taylor's College international applicants should upload their completed "Commitment to Veterinary Science" form as part of the online application process. International applications are assessed on a rolling basis, and so it is in the applicant's best interest to upload this as soon as possible, by the **22<sup>nd</sup> of November 2019** at the latest.

**NOTE:** It is the responsibility of the applicant to ensure all supporting documentation is attached. Applications submitted without supporting documentation will not be processed. Please do not send original documents, only certified copies. Please note we do not accept emails or facsimiles.

#### Veterinary/Animal Handling/Animal Welfare Experience

List below the names and addresses of veterinary or other related establishments (practices/laboratories/wildlife/care facilities etc) where you have obtained experience of an animal related nature (attach supporting documentation). Applicants are expected to have undertaken a **minimum** of 5 full days of work experience at veterinary establishments. Work experience must include animal handling, i.e. direct hands-on contact with animals (not just observation). If you have less than 5 days, please complete the Additional Information section on page 3.

<b>Establishment</b> (including contact name, address and telephone number of a contactable suitable staff member)	<b>Type(s) of experience</b>	<b>Number of days worked</b>

## Animal Handling Experience Checklist

A list of some skills with domestic animals appears in the following table. Please tick below all relevant animal handling skills, indicating the level of involvement.

Observed: Means you have witnessed the procedure

Completed: Means you have performed the procedure with or without supervision

<b>HORSES</b>					
Activity	Observed	Completed	Activity	Observed	Completed
Assess normal condition and behaviour			Prepare a horse for transport; leg, tail bandages		
Haltering			Saddle a horse		
Leading			Loading of horse into transport		
Tying up			Restraint of horse with a twitch		
Grooming			Pick-up forelimb		
Rugging			Pick-up hindlimb		
Bridling			Clean out hooves		
<b>CATTLE</b>					
Activity	Observed	Completed	Activity	Observed	Completed
Mustering			Vaccination		
Drafting			Drench		
Use of cattle crush			De-horn/disbud calves		
Restraint using ropes and nose pliers			Hand milk; strip milk sample for mastitis test

Fit a muzzle			Take rectal temperature		
Lift a small dog (<15 kg)			Trim claws		
Lift a large dog (>15 kg) with assistance			Restrain a dog for physical examination		
Dose a dog with a tablet			Express anal sacs		

### Additional Information

If you have less than 5 full days of animal handling experience listed in the Veterinary/Animal Handling/Animal Welfare Experience section on page 1, please use this space to:

- Explain why you may have lacked the opportunity to handle animals, AND
- Describe any animal handling experience you have from taking care of your own pets. You should describe any involvement in the intensive care of unwell pets over a sustained period of time (rather than routine day-to-day maintenance of feeding, walking and grooming).

**Please do not exceed 200 words.**

**Reflective Statement**

Select one of the procedures listed in the Animal Handling Experience Checklist on page 2 that you have completed (not just observed).

- State the procedure.
- Reflect on any discomfort the procedure may have caused to the animal.
- Reflect on the benefits of the procedure to the health and welfare of the animal.

**Please do not exceed 200 words.**

<b>Procedure:</b>
<b>Reflection:</b>

I certify that all the above details are complete and correct. I am aware, should my application be successful, that my current self-assessment of handling skills may be subject to close scrutiny.
