

Volunteer training and development

We provide our volunteers with comprehensive training which includes: cultural competence; group facilitation skills; and program-specific knowledge. All volunteers undergo a Working With Children Check ahead of working with schools.

We value the hard work and dedication of our volunteers. Each year we offer paid work opportunities at on-campus events and in-school workshops.

“Joining the Study Centre as a volunteer has been a great opportunity to help other students to get into uni. If they know that someone else from the area has gone to uni, it gives them motivation to try and go too!”

“As a volunteer I have gained an insight into the practice of teaching and communication, bringing to life the theory that I have been exposed to as an Education student. This has opened my eyes to the power of education and how all students regardless of their backgrounds can strive for higher education.”
