1. Medical Research Future Fund: Frontier Health and Medical Research Program Stage One processes

The Medical Research Future Fund is designed to achieve Australian Government objectives

This grant opportunity is part of the above program, which contributes to the Department of Health's Outcome 1. The Department of Health has worked with stakeholders to plan and design the grant program according to the *Commonwealth Grants Rules and Guidelines*.

The grant opportunity opens

We publish the grant guidelines on business.gov.au and [GrantConnect](#).

You complete and submit a Stage One research plan

We assess all Stage One applications

We assess the applications against eligibility criteria and notify you if you are not eligible. We assess eligible applications against the merit criteria including an overall consideration of value with relevant money and compare it to other eligible applications.

We make grant recommendations

We provide advice to the decision maker on the merits of each application.

Grant decisions are made

The decision maker decides which applications are successful.

We notify you of the outcome

We advise you of the outcome of your application. We may not notify unsuccessful applicants until grant agreements have been executed with successful applicants.

We enter into a grant agreement

We will enter into a grant agreement with successful applicants. The type of grant agreement is based on the nature of the grant and proportional to the risks involved.

Successful applicants will be invited to submit an application under Stage Two grant opportunity

Delivery of grant

You undertake the grant activity as set out in your grant agreement. We manage the grant by working with you, monitoring your progress and making payments.

Depending on the outcomes of your research plan, you may be invited to apply for Stage Two.

Evaluation of the program

We evaluate the specific grant activity and grant opportunity as a whole. We base this on information you provide to us and that we collect from various sources.

2. About the Medical Research Future Fund

As part of the 2014-15 Budget, the Australian Government announced the establishment of the \$20 billion Medical Research Future Fund (the MRFF) to provide a sustainable source of funding for vital medical research over the medium to longer term. Through the MRFF, the Government will deliver a major additional injection of funds into the health and medical research sector.

The objective of the MRFF is to strategically fund research and address national priorities in a cohesive and coordinated way.

The MRFF complements existing medical research and innovation funding to improve health outcomes by distributing new funding in ways that are more diverse. It supports stronger partnerships between researchers, healthcare professionals, governments and the community.

The intended outcomes of the MRFF are:

- life changing discoveries such as new treatments, drugs and devices
- continuous improvement and innovation in the health system that benefits all Australians
- strengthening domestic research capacity through support, collaboration and the development of expert talent
- positioning Australia's health and medical research sector at the forefront of the innovation economy
- improving Australia's reputation as a global leader in health and medical research.

2.1. About the Frontier Health and Medical Research Program

These guidelines contain information about the Frontier Health and Medical Research Program (the program) which is supported by the MRFF. The Australian Government has announced a total of \$240 million over five years for the program. For this Stage One grant opportunity, up to \$10 million is available.

The program will create opportunities for researcher collaborations to explore bold and innovative ideas and/or make discoveries of great potential and global impact. It will catalyse ground-breaking research with the potential to transform the full spectrum of the health system.

Australia has the potential to lead markets and create new ones by applying cutting-edge science and technologies to new, first in world applications that improve human health. This program will encourage Australia's best and brightest researchers to create talented and ambitious multi-disciplinary teams. These teams will work together to put forward big bold ideas. The program will provide sustained and targeted support to turn these ideas into a research program that has the potential to create new technological advances and/or approaches to revolutionise healthcare and the creation of new research and industries.

The program will operate using a two-stage process. Stage One will fund development of detailed research plans for cutting-edge research projects. Stage Two will fund the implementation of selected research projects. Successful applicants from the Stage One grant opportunity will be invited to participate in Stage Two.

2.2. About the Frontier Health and Medical Research Program Stage One grant opportunity

The Stage One grant opportunity will fund up to ten projects.

Stage One provides funding over one year to develop a detailed research plan. The research plan will cover up to five years of activity to take your idea from concept to outcome. You must

demonstrate how your idea is novel and transformative, and how you will bring together multi-disciplinary research and industry partners to transform your idea into practical benefit for Australia.

The objective of this Stage One grant opportunity is to provide funding to develop detailed planning for significant research projects in the health and medical research sector that are innovative at a global level and have great potential to have a transformative impact on health care.

The intended outcome of this grant opportunity is a detailed research and implementation plan that will form the basis of a Stage Two application that supports research into a range of new treatments for disease and medical services that can transform health care in Australia. These guidelines relate to Stage One only. We will issue separate grant opportunity guidelines for Stage Two in 2019.

This document sets out:

- the eligibility and merit criteria
- how we consider and assess grant applications
- how we monitor and evaluate grantees
- responsibilities and expectations in relation to the opportunity.

The Department of Industry, Innovation and Science (the department) is responsible for administering the grant opportunity on behalf of the Department of Health.

We administer the program according to the Commonwealth Grants Rules and Guidelines (CGRGs)¹.

We have defined key terms used in these guidelines in Appendix A.

You should read this document carefully before you fill out an application.

We will publish the [opening and closing dates](#) and any other relevant information on business.gov.au and [GrantConnect](#)².

2.3. About the Frontier Health and Medical Research Program Stage Two grant opportunity

We will issue separate grant opportunity guidelines for Stage Two in 2019. We will only invite successful Stage One applicants to submit an application under Stage Two through a competitive selection process.

Stage two projects will enable a number of the research plans developed under Stage One to receive a significant investment to develop their ideas into new technological advances and/or approaches to revolutionise healthcare. Stage Two grants may vary depending on applicant requirements, but typically would be in the range of \$10 to \$20 million per annum.

3. Grants available

3.1. Grant amount

The Stage One (Research Plan) grant opportunity will provide up to \$10 million.

- The minimum grant amount is \$250,000.

¹ <https://www.finance.gov.au/sites/default/files/commonwealth-grants-rules-and-guidelines.pdf>

² www.grants.gov.au

- The maximum grant amount is \$1 million.

The grant amount will be up to 100 per cent of eligible project costs (grant percentage).

3.2. Project duration

You must complete your project within one year of execution of the grant agreement.

4. Eligibility criteria

We cannot consider your application if you do not satisfy all eligibility criteria.

4.1. Who is eligible?

To be an eligible organisation you must:

- have an Australian Business Number (ABN)
- be incorporated in Australia,

and, in accordance with s24 of the [Medical Research Future Fund Act 2015](#)³, you must be one of the following eligible bodies:

- a medical research institute
- a university
- a corporate Commonwealth entity
- a corporation (including businesses and not for profits).

Joint applications are encouraged, provided you have a lead applicant who is the main driver of the project and is eligible to apply. For further information on joint applications, refer to section 7.2.

4.2. Additional eligibility requirements

We can only accept applications where you provide:

- evidence from your board (or chief executive officer or equivalent if there is no board) that the project is supported, and that you can complete the project and meet the costs of the project not covered by grant funding
- letters of support from each project partner are provided (see section 7.2)
- a project plan
- a project budget
- details of intellectual property (IP) arrangements as per the requirements in section 10.3.2 as an attachment if this is not included within the written content of the application.
- a trust deed (where applicable).

We cannot waive the eligibility criteria under any circumstances.

4.3. Who is not eligible?

You are not eligible to apply if you are:

- an individual
- partnership
- trust (however, an incorporated trustee may apply on behalf of a trust)

³ <https://www.legislation.gov.au/Details/C2015A00116>

- a Commonwealth, State, Territory or local government body (including government business enterprises)
- a non-corporate Commonwealth entity.

5. Eligible grant activities

5.1. Eligible projects

To be eligible your project must:

- include eligible activities and eligible expenditure
- align with the goals and objectives of the Medical Research Future Fund outlined in section 2.

We cannot fund your project if it receives funding from another Commonwealth government grant. You can apply for a grant for your project under more than one Commonwealth program, but if your application is successful, you must choose either the grant or the other Commonwealth grant.

5.2. Eligible activities

Eligible activities must directly relate to the project and can include:

- developing a detailed research plan as outlined in section 10.1
- generation of data supporting the feasibility of the proposed project.

We may also approve other activities.

5.3. Eligible expenditure

You can only spend grant funds on eligible expenditure you have incurred on an agreed project as defined in your grant agreement.

- For guidelines on eligible expenditure, see Appendix B.
- For guidelines on ineligible expenditure, see Appendix C.

If your application is successful, we may ask you to verify project costs that you provided in your application. You may need to provide evidence such as quotes for major costs.

Not all expenditure on your project may be eligible for grant funding. The program delegate makes the final decision on what is eligible expenditure and may give additional guidance on eligible expenditure if required.

To be eligible, expenditure must:

- be a direct cost of the project
- be incurred by you for required project audit activities.

You must incur the project expenditure between the project start and end date for it to be eligible unless stated otherwise.

You must not commence your project until you execute a grant agreement with the Commonwealth.

6. The merit criteria you need to address

To be competitive, you will need to address all merit criteria in your application. We will assess your application against each merit criterion using the weighting indicated.

The application form asks questions that relate to the merit criteria below. The amount of detail and supporting evidence you provide in your application should be relative to the project size, complexity and grant amount requested. You should provide evidence to support your answers. The application form displays size limits for answers.

We will only award funding to applications that score highly against all merit criteria, as these represent best value for money.

6.1. Merit criterion 1

The extent that your project applies cutting edge research to develop new to world applications that will deliver significant benefits for human health (50 points)

You should demonstrate this by identifying:

- the opportunity to be addressed through your project including the research or translation gap your project will tackle, the potential impact on human health, and the novel aspects of your research
- the extent your project uses a multi-disciplinary team and why this is important for the success of your project
- how your project will leverage existing Australian and international research, expertise and intellectual property
- the translation and commercialisation opportunities for your research outcome/s including new treatments, products, processes or services.

6.2. Merit criterion 2

Your capacity, capability and resources to deliver the project (40 points)

You should demonstrate this by identifying:

- your track record managing similar projects and access to personnel with the right skills and experience
- your access, or future access to, any infrastructure, capital equipment, technology and intellectual property
- a sound project plan to manage and monitor the project and risks.

6.3. Merit criterion 3

Impact of grant funding (10 points)

You should demonstrate this by identifying:

- the total investment the grant will leverage including cash and in-kind contributions
- your ability to fund your share of project costs not covered by the grant
- your project budget.

7. How to apply

Before applying, you should read and understand these guidelines, the sample [application form](#) and the sample [grant agreement](#) published on business.gov.au and [GrantConnect](#).

You can only submit one application per project during a funding round. **Each application will need to identify a Chief Investigator. The Chief Investigator is the key researcher that has the expertise and will lead the project. The Chief Investigator can only be named in one application per round.**

To apply, you must:

- complete the online application form on business.gov.au
- provide all the information requested
- address all eligibility and merit criteria
- include all necessary attachments.

When you submit your online application, we will provide you with an automated receipt number and we will send a copy of your complete application to both the contact email address and the declarant email address that you provide in the form.

You are responsible for making sure your application is complete and accurate. Giving false or misleading information is a serious offence under the *Criminal Code 1995* (Cth). If we consider that you have provided false or misleading information we may not progress your application. If you find an error in your application after submitting it, you should call us immediately on 13 28 46.

If we find an error or information that is missing, we may ask for clarification or additional information from you that will not change the nature of your application. However, we can refuse to accept any additional information from you that would change your submission after the application closing time.

If you need further guidance around the application, process or if you are unable to submit an application online [contact us](#) at business.gov.au or by calling 13 28 46.

7.1. Attachments to the application

We require the following documents with your application:

- project plan
- project budget
- details of intellectual property (IP) arrangements as per the requirements in section 10.3.2 as an attachment if this is not included within the written content of the application.
- evidence of support from the board, CEO or equivalent
- letters of support from project collaborators (see section 7.2)
- trust deed (where applicable)

You must attach supporting documentation to the application form in line with the instructions provided within the form. You should only attach requested documents. We will not consider information in attachments that we do not request.

7.2. Joint applications

We expect that organisations will join as a group to deliver a project. In these circumstances, you must appoint a lead organisation. Only the lead organisation can submit the application form and enter into the grant agreement with the Commonwealth. Only the lead applicant must be an eligible applicant.

The application should identify all other members of the proposed group and include a letter of support from each of the project partners. Each letter of support should include:

- details of the project partner
- an overview of how the project partner will work with the lead organisation and any other project partners in the group to successfully complete the project
- an outline of the relevant experience and/or expertise the project partner will bring to the group

- the roles/responsibilities the project partner will undertake, and the resources it will contribute (if any)
- details of a nominated management level contact officer.

You must have a formal arrangement in place with all parties.

7.3. Timing of grant opportunity

You can only submit an application between the published opening and closing dates. We cannot accept late applications.

Table 1: Expected timing for this grant opportunity

Activity	Timeframe
Assessment of applications	4 weeks
Approval of outcomes of selection process	8 weeks
Negotiations and award of grant agreements	4 weeks
Notification to unsuccessful applicants	2 weeks
Earliest start date of project	Date of execution of your agreement
End date of grant commitment	30 June 2020

8. The selection process

We first assess your application against the eligibility criteria.

Only eligible applications will proceed to the merit assessment stage.

We refer your application to an independent Frontier Health and Medical Research Advisory Committee of Australian and international experts. The committee may also seek additional advice from independent technical experts.

The committee will assess your application against the merit criteria and compare it to other eligible applications before recommending which projects to proceed.

To recommend an application for funding it must score highly against the merit criteria.

If the selection process identifies unintentional errors in your application, we may contact you to correct or clarify the errors, but you cannot make any material alteration or addition.

8.1. Final decision

The Program Delegate, a Commonwealth official who has been authorised to make decisions, decides which grants to approve taking into account the recommendations of the committee and the availability of grant funds.

The Program Delegate's decision is final in all matters, including:

- the approval of applications for funding
- the amount of grant funding awarded
- the terms and conditions of funding.

We cannot review decisions about the merits of your application.

9. Notification of application outcomes

If you are successful, you will receive a written offer, including any specific conditions attached to the grant.

If you are unsuccessful, we will notify you in writing and give you an opportunity to discuss the outcome with us. You can submit a new application for the same (or similar) project in any future funding rounds. You should include new or more information to address the weaknesses identified in your previous application. If a new application is substantially the same as a previous ineligible or unsuccessful application, we may refuse to consider it for merit assessment.

10. If your application is successful

10.1. Research plan

The outcome of this grant is a detailed research and implementation plan that will form the basis of a Stage Two application. At the end of your project, you must submit a research plan that will identify:

- the area of research including:
 - what you intend to do
 - why the work is important
 - what has already been done
 - how you will do the work.
- major activities to be undertaken during the Stage Two project
- expected deliverables from the project
- the project budget
- resource requirements (including people)
- intellectual property arrangements
- the objectives for healthcare or health systems improvement
- how the research will leverage existing and new domestic and international multidisciplinary collaborations
- the ability to leverage national and international research infrastructure
- the potential for industry and/or philanthropy involvement, collaboration and investment
- the potential for translation and commercialisation
- the strengths and commitment of the members of the team that will undertake the project.

10.2. Grant agreement

You must enter into a grant agreement with the Commonwealth. We will use the Commonwealth's standard grant agreement. A sample [grant agreement](#) is available on business.gov.au and [GrantConnect](#).

We must execute a grant agreement with you before we can make any payments. We are not responsible for any expenditure you incur before a grant agreement is executed. If you choose to start your project before you have an executed grant agreement, you do so at your own risk.

The approval of your grant may have specific conditions determined by the assessment process or other considerations made by the Program Delegate. We will identify these in the offer of funding.

If you enter an agreement under this grant opportunity, you cannot receive other grants for this project for the same activities from other Commonwealth, State or Territory granting programs.

The Commonwealth may recover grant funds if there is a breach of the grant agreement.

You will have 30 days from the date of a written offer to execute this grant agreement with the Commonwealth ('execute' means both you and the Commonwealth have signed the agreement). During this time, we will work with you to finalise details. The offer may lapse if both parties do not sign the grant agreement within this time. Under certain circumstances, we may extend this period. We base the approval of your grant on the information you provide in your application. We will review any required changes to these details to ensure they do not impact the project as approved by the Program Delegate.

10.3. Project specific legislation, policies and industry standards

You are required to be compliant with all relevant laws and regulations. Wherever the government funds research activities, the following special regulatory requirements may apply:

- [Medical Research Future Fund Act 2015](#)⁴
- Working with Vulnerable People registration
- Working with Children Checks
- Ethics and research practices
- Intellectual property rights.

To be eligible, you must declare in your application that you comply with these requirements. You will need to declare you can meet these requirements in your grant agreement with the Commonwealth.

10.3.1. Ethics and research practices

The [National Health and Medical Research Council](#)⁵ (NHMRC) website provides a series of publications that outline the principles of ethical conduct in research. All proposals and funded research projects must conform to the principles and requirements of these publications (and their successor documents), included but not limited to:

- the NHMRC/ARC/UA Australian Code for the Responsible Conduct of Research (2018) and successor documents
- the NHMRC/ARC/UA National Statement on Ethical Conduct in Human Research (2007, updated 2018); and
 - the Australian Code for the care and use of animals for scientific purposes (2013) endorsed by the NHMRC, the ARC, the Commonwealth Scientific and Industrial Research Organisation and UA.

If there is any conflict or inconsistency between a successor document and its predecessor, then the successor document prevails.

10.3.2. Intellectual property rights

Applicants must provide details of intellectual property (IP) arrangements in their applications. This includes both the use of IP in the project and the proposed ownership rights to IP generated by the

⁴ <https://www.legislation.gov.au/Details/C2015A00116>

⁵ <https://www.nhmrc.gov.au/>

project as well as strategies for protecting Australia's interests. Where IP is likely to be generated by the project, successful applicants are required to conclude protocols or contracts with their collaborating partners on the management of IP issues. These agreements should be in accordance with laws and regulations in Australia.

10.4. How we pay the grant

The grant agreement will state the maximum grant amount we will pay.

We will not exceed the maximum grant amount under any circumstances. If you incur extra costs, you must meet them yourself.

We will make an initial payment on execution of your grant agreement. We will make subsequent payments according to an agreed schedule set out in the grant agreement. Payments are subject to satisfactory progress on the project.

10.5. How we monitor your project

You must submit reports in line with the grant agreement. We will provide sample templates for these reports as appendices in the grant agreement. You will also be able to download them from business.gov.au and [GrantConnect](#). We will remind you of your reporting obligations before a report is due. We will expect you to report on:

- progress against agreed project milestones
- project expenditure, including expenditure of grant funds.

The amount of detail you provide in your reports should be relative to the project size, complexity and grant amount.

We will monitor the progress of your project by assessing reports you submit and may conduct site visits to confirm details of your reports if necessary. Occasionally we may need to re-examine claims, seek further information or request an independent audit of claims and payments.

10.5.1. Progress reports

Progress reports must:

- include details of your progress towards completion of agreed project activities
- show the total eligible expenditure incurred to date
- include evidence of expenditure
- be submitted quarterly by the report due date (you can submit reports ahead of time if you have completed relevant project activities).

We will only make grant payments when we receive satisfactory progress reports.

You must discuss any project or milestone reporting delays with us as soon as you become aware of them.

10.5.2. Final report

When you complete the project, you must submit a final report.

Final reports must:

- include the agreed evidence as specified in the grant agreement
- identify the total eligible expenditure incurred for the project
- be submitted by the report due date
- be in the format provided in the grant agreement.

10.5.3. Ad-hoc reports

We may ask you for ad-hoc reports on your project. This may be to provide an update on progress, or any significant delays or difficulties in completing the project.

10.5.4. Independent audit report

We may ask you to provide an independent audit report. An audit report will verify that you spent the grant in accordance with the grant agreement. The audit report requires you to prepare a statement of grant income and expenditure. The report template is attached to the sample grant agreement.

10.6. Compliance visits

We may visit you during the project period, or at the completion of your project, to review your compliance with the grant agreement. We may also inspect the records you are required to keep under the grant agreement. We will provide you with reasonable notice of any compliance visit.

10.7. Grant agreement variations

We recognise that unexpected events may affect project progress. In these circumstances, you can request a variation to your grant agreement, including:

- changing project milestones
- extending the timeframe for completing the project but within the maximum three year period
- changing project activities.

Note the program does not allow for:

- an increase of grant funds.

If you want to propose changes to the grant agreement, you must put them in writing before the grant agreement end date. We can provide you with a variation request template.

If a delay in the project causes milestone achievement and payment dates to move to a different financial year, you will need a variation to the grant agreement. We can only move funds between financial years if there is enough program funding in the relevant year to allow for the revised payment schedule. If we cannot move the funds, you may lose some grant funding.

You should not assume that a variation request will be successful. We will consider your request based on factors such as:

- how it affects the project outcome
- consistency with the program policy objective, grant opportunity guidelines and any relevant policies of the department
- changes to the timing of grant payments
- availability of program funds.

10.8. Keeping us informed

You should let us know if anything is likely to affect your project or organisation.

We need to know of any key changes to your organisation or its business activities, particularly if they affect your ability to complete your project, carry on business and pay debts due.

You must also inform us of any changes to your:

- name

- addresses
- nominated contact details
- bank account details.

If you become aware of a breach of terms and conditions under the grant agreement you must contact us immediately.

You must notify us of events relating to your project and provide an opportunity for the Minister or their representative to attend.

10.9. Evaluation

We will evaluate the program to determine the extent to which the funded activity is contributing to the program objectives and outcomes. We may use information from your application and project reports for this purpose. We may also interview you, or ask you for more information to help us understand how the grant impacted you and to evaluate how effective the program was in achieving its outcomes. We may contact you up to one year after you finish your project for more information to assist with this evaluation.

10.10. Tax obligations

If you are registered for the Goods and Services Tax (GST), we will add GST to your grant payment where applicable and provide you with a recipient created tax invoice. You are required to notify us if your GST registration status changes during the project period.

Grants are assessable income for taxation purposes, unless exempted by a taxation law. We recommend you seek independent professional advice on your taxation obligations or seek assistance from the [Australian Taxation Office](#). We do not provide advice on tax.

10.11. Grant acknowledgement

If you make a public statement about a project funded under the program, you must acknowledge the grant by using the following:

‘This project received grant funding from the Australian Government.’

11. Conflicts of interest

11.1. Your conflict of interest responsibilities

A conflict of interest will occur if your private interests conflict with your obligations under the grant. Conflicts of interest could affect the awarding or performance of your grant. A conflict of interest can be:

- real (or actual)
- apparent (or perceived)
- potential.

We will ask you to declare, as part of your application, any perceived or existing conflicts of interests or that, to the best of your knowledge, there is no conflict of interest.

If you later identify that there is an actual, apparent, or potential conflict of interest or that one might arise in relation to your grant, you must inform us in writing immediately.

11.2. Our conflict of interest responsibilities

We recognise that conflicts of interest may arise with our staff, technical experts, committee members, and others delivering the program between:

- their program duties, roles and responsibilities and
- their private interests.

We manage our conflicts of interest according to the APS Code of Conduct (section 13 (7) of the *Public Service Act 1999* (Cth)). We publish our [conflict of interest policy⁶](#) on the department's website.

Grant opportunity officials must declare any conflicts of interest. If we consider a conflict of interest is a cause for concern, that official will not take part in the assessment of relevant applications under the grant opportunity.

12. How we use your information

Unless the information you provide to us is:

- confidential information as per section 12.1, or
- personal information as per section 12.3,

we may share the information with other government agencies for a relevant Commonwealth purpose such as:

- to improve the effective administration, monitoring and evaluation of Australian Government programs
- for research
- to announce the awarding of grants.

12.1. How we handle your confidential information

We will treat the information you give us as sensitive and therefore confidential if it meets all of the following conditions:

- you clearly identify the information as confidential and explain why we should treat it as confidential
- the information is commercially sensitive
- disclosing the information would cause unreasonable harm to you or someone else
- you provide the information with an understanding that it will stay confidential.

12.2. When we may disclose confidential information

We may disclose confidential information:

- to the committee and our Commonwealth employees and contractors, to help us manage the program effectively
- to the Auditor-General, Ombudsman or Privacy Commissioner
- to the responsible Minister or Assistant Minister

6

<https://www.industry.gov.au/AboutUs/InformationPublicationScheme/Ourpolicies/Documents/Conflict-of-Interest-and-Inside-Trade-Expectations-Policy.pdf>

- to a House or a Committee of the Australian Parliament.

We may also disclose confidential information if

- we are required or authorised by law to disclose it
- you agree to the information being disclosed, or
- someone other than us has made the confidential information public.

12.3. How we use your personal information

We must treat your personal information according to the Australian Privacy Principles (APPs) and the *Privacy Act 1988* (Cth). This includes letting you know:

- what personal information we collect
- why we collect your personal information
- to whom we give your personal information.

We may give the personal information we collect from you to our employees and contractors, the committee, and other Commonwealth employees and contractors, so we can:

- manage the program
- research, assess, monitor and analyse our programs and activities.

We, or the Minister, may:

- announce the names of successful applicants to the public
- publish personal information on the department's websites.

You may read our [Privacy Policy](#)⁷ on the department's website for more information on:

- what is personal information
- how we collect, use, disclose and store your personal information
- how you can access and correct your personal information.

12.4. Public announcement

We will publish non-sensitive details of successful projects on [business.gov.au](#) and [GrantConnect](#). We are required to do this by the *Commonwealth Grants Rules and Guidelines* and the [Australian Government Public Data Policy Statement](#)⁸, unless otherwise prohibited by law. This information may include:

- name of your organisation
- title of the project
- description of the project and its aims
- amount of grant funding awarded
- Australian Business Number
- business location
- your organisation's industry sector.

⁷ <http://www.industry.gov.au/Pages/PrivacyPolicy.aspx>

⁸ <http://www.dpmc.gov.au/resource-centre/data/australian-government-public-data-policy-statement>

We publish this information to ensure open access to non-sensitive data within Australian Government agencies to enable greater innovation and productivity across all sectors of the Australian economy.

12.5. Freedom of information

All documents in the possession of the Australian Government, including those about the program, are subject to the *Freedom of Information Act 1982* (Cth) (FOI Act).

The purpose of the FOI Act is to give members of the public rights of access to information held by the Australian Government and its entities. Under the FOI Act, members of the public can seek access to documents held by the Australian Government. This right of access is limited only by the exceptions and exemptions necessary to protect essential public interests and private and business affairs of persons in respect of whom the information relates.

If someone requests a document under the FOI Act, we will release it (though we may need to consult with you and/or other parties first) unless it meets one of the exemptions set out in the FOI Act.

13. Enquiries and feedback

For further information or clarification, you can contact us on 13 28 46 or by [web chat](#) or through our [online enquiry form](#) on business.gov.au.

We may publish answers to your questions on our website as Frequently Asked Questions.

Our [Customer Service Charter](#) is available at business.gov.au. We use customer satisfaction surveys to improve our business operations and service.

If you have a complaint, call us on 13 28 46. We will refer your complaint to the appropriate manager.

If you are not satisfied with the way we handle your complaint, you can contact:

Head of Division

AusIndustry - Support for Business

Department of Industry, Innovation and Science

GPO Box 2013

CANBERRA ACT 2601

You can also contact the [Commonwealth Ombudsman](#)⁹ with your complaint (call 1300 362 072). There is no fee for making a complaint, and the Ombudsman may conduct an independent investigation.

Appendix A. Definitions of key terms

Term	Definition
Application form	The document issued by the Program Delegate that applicants use to apply for funding under the program.
AusIndustry	The division of the same name within the department.
Department	The Department of Industry, Innovation and Science.
Medical Research Future Fund Committee	The body established by the Minister to consider and assess eligible applications and make recommendations to the Minister for funding under the program.
Chief Investigator	The designated person with primary responsibility for the scientific oversight and the management of the research activities funded by this grant opportunity.
Eligible activities	The activities undertaken by a grantee in relation to a project that are eligible for funding support as set out in 5.2.
Eligible application	An application for grant funding under the program that the Program Delegate has determined is eligible for assessment in accordance with these guidelines.
Eligible expenditure	The expenditure incurred by a grantee on a project and which is eligible for funding support as set out in 5.3.
Eligible expenditure guidelines	The guidelines that are at Appendix B.
Grant agreement	A legally binding contract between the Commonwealth and a grantee for the grant funding
GrantConnect	Australian Government's grants information system that provides centralised publication of forecast and current Australian Government grant opportunities and grants awarded. https://www.grants.gov.au/
Grant funding or grant funds	The funding made available by the Commonwealth to grantees under the program.
Grant opportunity/ies	Grant Opportunities (GO) is a collective term to describe any notice published on GrantConnect inviting potential recipients to apply for an Australian government grant. Grant Opportunities may be open or restricted and will reflect the relevant grant selection process specified in the Commonwealth Grants Rules and Guidelines (CGRGs).
Grantee	The recipient of grant funding under a grant agreement.
Guidelines	Guidelines that the Minister gives to the department to provide the framework for the administration of the program, as in force from time to time.

Term	Definition
Medical research	Medical research includes research into health.
Minister	The Commonwealth Minister for Health.
Personal information	<p>Has the same meaning as in the <i>Privacy Act 1988</i> (Cth) which is:</p> <p>Information or an opinion about an identified individual, or an individual who is reasonably identifiable:</p> <ol style="list-style-type: none"> a. whether the information or opinion is true or not; and b. whether the information or opinion is recorded in a material form or not.
Program Delegate	A Commonwealth official with responsibility for the grant opportunity.
Program funding or Program funds	The funding made available by the Commonwealth for the program.
Project	A project described in an application for grant funding under the program.
Publicly funded research organisation (PFRO)	All higher education providers listed at Table A and Table B of the <i>Higher Education Support Act 2003</i> (Cth) and corporate Commonwealth entities, and State and Territory business enterprises that undertake publicly funded research.

Appendix B. Eligible expenditure

This section provides guidelines on the eligibility of expenditure. We may update these guidelines from time to time, so you should make sure you have the current version from the business.gov.au and GrantConnect website before preparing your application.

The Program Delegate makes the final decision on what is eligible expenditure and may give additional guidance on eligible expenditure if required.

To be eligible, expenditure must:

- be incurred by you within the project period
- be a direct cost of the project
- be incurred by you to undertake required project audit activities
- meet the eligible expenditure guidelines.

How we verify eligible expenditure

If your application is successful, we will ask you to verify the project budget that you provided in your application when we negotiate your grant agreement. You may need to provide evidence such as quotes for major costs.

The grant agreement will include details of the evidence you may need to provide when you achieve certain milestones in your project. This may include evidence related to eligible expenditure.

If requested, you will need to provide the agreed evidence along with your progress reports.

You must keep payment records of all eligible expenditure, and be able to explain how the costs relate to the agreed project activities. At any time, we may ask you to provide records of the expenditure you have paid. If you do not provide these records when requested, the expense may not qualify as eligible expenditure.

At the end of the project, you may be required to provide an independent financial audit of all eligible expenditure from the project.

Labour expenditure

Eligible labour expenditure for the grant covers the direct labour costs of employees you directly employ on the core elements of the project. We consider a person an employee when you pay them a regular salary or wage, out of which you make regular tax instalment deductions.

We consider costs for technical, but not administrative, project management activities eligible labour expenditure. However, we limit these costs to 10 per cent of the total amount of eligible labour expenditure claimed.

We do not consider labour expenditure for leadership or administrative staff (such as CEOs, CFOs, accountants and lawyers) as eligible expenditure, even if they are doing project management tasks.

Eligible salary expenditure includes an employee's total remuneration package as stated on their Pay As You Go (PAYG) Annual Payment Summary submitted to the ATO. We consider salary-sacrificed superannuation contributions as part of an employee's salary package if the amount is more than what the Superannuation Guarantee requires.

The maximum salary for an employee, director or shareholder, including packaged and overhead components that you can claim through the grant is \$175,000 per financial year.

For periods of the project that do not make a full financial year, you must reduce the maximum salary amount you claim proportionally.

You can only claim eligible salary costs when an employee is working directly on agreed project activities during the agreed project period.

Labour on-costs and administrative overhead

You may increase eligible salary costs by an additional 30% allowance to cover on-costs such as employer paid superannuation, payroll tax, workers compensation insurance, and overheads such as office rent and the provision of computers.

You should calculate eligible salary costs using the formula below:

$$\text{Eligible salary costs} = \text{Annual salary package} \times \frac{\text{Weeks spent on project}}{52 \text{ weeks}} \times \text{percentage of time spent on project}$$

You cannot calculate labour costs by estimating the employee's worth. If you have not exchanged money (either by cash or bank transactions) we will not consider the cost eligible.

Evidence you will need to provide can include:

- details of all personnel working on the project, including name, title, function, time spent on the project and salary
- ATO payment summaries, pay slips and employment contracts.

Contract expenditure

Eligible contract expenditure is the cost of any agreed project activities that you contract others to do. These can include contracting:

- another organisation
- an individual who is not an employee, but engaged under a separate contract.

All contractors must have a written contract prior to starting any project work—for example, a formal agreement, letter or purchase order which specifies:

- the nature of the work they perform
- the applicable fees, charges and other costs payable.

Invoices from contractors must contain:

- a detailed description of the nature of the work
- the hours and hourly rates involved
- any specific plant expenses paid.

Invoices must directly relate to the agreed project, and the work must qualify as an eligible expense. The costs must also be reasonable and appropriate for the activities performed.

We will require evidence of contractor expenditure that may include:

- an exchange of letters (including email) setting out the terms and conditions of the proposed contract work
- purchase orders
- supply agreements

- invoices and payment documents.

You must ensure all project contractors keep a record of the costs of their work on the project. We may require you to provide a contractor's records of their costs of doing project work. If you cannot provide these records, the relevant contract expense may not qualify as eligible expenditure.

Travel and overseas expenditure

Eligible travel and overseas expenditure may include:

- domestic travel limited to the reasonable cost of accommodation and transportation required to conduct agreed project and collaboration activities in Australia
- overseas travel limited to the reasonable cost of accommodation and transportation required in cases where the overseas travel is material to the conduct of the project in Australia.

Eligible air transportation is limited to the economy class fare for each sector travelled; where non-economy class air transport is used only the equivalent of an economy fare for that sector is eligible expenditure. Where non-economy class air transport is used, the grantee will require evidence showing what an economy air fare costs at the time of travel.

We will consider value for money when determining whether the cost of overseas expenditure is eligible. This may depend on:

- the proportion of total grant funding that you will spend on overseas expenditure
- the proportion of the service providers total fee that will be spent on overseas expenditure
- how the overseas expenditure is likely to aid the project in meeting the program objectives.

Overseas travel must be at an economy rate and you must demonstrate you cannot access the service, or an equivalent service in Australia.

Eligible overseas activities expenditure is generally limited to 10 per cent of total eligible expenditure.

Other eligible expenditure

Other eligible expenditures for the project may include:

- staff training that directly supports the achievement of project outcomes
- financial auditing of project expenditure
- costs you incur in order to obtain planning, environmental or other regulatory approvals during the project period. However, associated fees paid to the Commonwealth, state, territory and local governments are not eligible
- contingency costs up to a maximum of 10% of the eligible project costs. Note that we make payments based on actual costs incurred.

Other specific expenditures may be eligible as determined by the Program Delegate.

Evidence you need to supply can include supplier contracts, purchase orders, invoices and supplier confirmation of payments.

Appendix C. Ineligible expenditure

This section provides guidelines on what we consider ineligible expenditure. We may update these guidelines from time to time, so you should make sure you have the current version from the business.gov.au website before preparing your application.

The Program Delegate may impose limitations or exclude expenditure, or further include some ineligible expenditure listed in these guidelines in a grant agreement or otherwise by notice to you.

Examples of ineligible expenditure include:

- research not directly supporting eligible activities
- activities, equipment or supplies that are already being supported through other sources
- costs incurred prior to execution of your grant agreement with the Commonwealth
- any in-kind contributions
- financing costs, including interest
- capital expenditure for the purchase of assets such as office furniture and equipment, motor vehicles, computers, printers or photocopiers and the construction, renovation or extension of facilities such as buildings and laboratories
- costs involved in the purchase or upgrade/hire of software (including user licences) and ICT hardware (unless it directly relates to the project)
- costs such as rental, renovations and utilities
- non-project-related staff training and development costs
- insurance costs (the participants must effect and maintain adequate insurance or similar coverage for any liability arising as a result of its participation in funded activities)
- debt financing
- costs related to obtaining resources used on the project, including interest on loans, job advertising and recruiting, and contract negotiations
- maintenance costs
- routine operational expenses, including communications, accommodation, office computing facilities, printing and stationery, postage, legal and accounting fees and bank charges
- costs related to preparing the grant application, preparing any project reports (except costs of independent audit reports we require) and preparing any project variation requests
- travel or overseas costs that exceed 10% of total project costs except where otherwise approved by the Program Delegate.

This list is not exhaustive and applies only to the expenditure of the grant funds. Other costs may be ineligible where we decide that they do not directly support the achievement of the planned outcomes for the project or that they are contrary to the objective of the program.

You must ensure you have adequate funds to meet the costs of any ineligible expenditure associated with the project.
