Degree pathways

- Professional degree – leads to accreditation and/or registration with a professional body (for example, education, engineering, law, medicine)
- Specialist degree – develop expertise in a specific field of study (for example, Design Computing, Economics, Music, Visual Arts)
- Liberal studies degree – pursue your interests from across a broad range of disciplines (for example, Arts, Commerce, Science)

Combined degrees – build complementary skills as you study across a combination of degree pathways.

Bachelor of Advanced Studies
- Graduate with two degrees in four years
- Complete a second major from either your primary area of study or the shared pool of majors and minors
- Challenge yourself through advanced coursework
- Work on real-world industry, community and research challenges across disciplines
