Inherent Requirements for Early Childhood Education Courses

To assist students to make informed choices about their study, we have identified and set out below the Inherent Requirements for coursework award courses in Early Childhood Education.

With appropriate supports and reasonable accommodations, students must be able to carry out the list of Inherent Requirements described below, in order to successfully complete a coursework award course in Early Childhood Education

The University of Sydney welcomes and encourages applications from students with disabilities, and from diverse social and cultural backgrounds. Where there are physical, intellectual, cultural, religious or other factors that impact on a student’s ability to meet the Inherent Requirements, the University will make reasonable adjustments to assist the student to meet the requirements.

To successfully complete their award course, students must meet the academic requirements set out in the Faculty and course resolutions – these are set out in the Faculty handbook. In addition, students in all courses are required to comply with Australian laws and University rules and policies, including the Code of Conduct for Students. The University of Sydney upholds the academic standards of each degree and discipline so that all students graduate with the skills and knowledge expected of a graduate of the award conferred.

Communication tasks
1. Comprehend spoken English delivered at conversational speed (including in indoor and outdoor noisy environments, such as an infants’ room or a centre’s outdoor play area).
2. Understand and respond to verbal communications accurately, appropriately and in a timely manner.
3. Communicate clearly, audibly and intelligibly in Standard Australian English (i.e. the variety of spoken and written English language in Australia used in more formal settings such as for official or public purposes, and recorded in dictionaries, style guides and grammars. While it is always dynamic and evolving, it is recognised as the ‘common language’ of Australians).
4. Read and comprehend information presented in a variety of standard formats.
   e.g. understand hand written or electronic observations, program plans, a centre’s quality improvement plan, policy updates from regulatory authorities.
5. Record information accurately and make coherent notes.
   e.g. write incident reports, observations and interpretations of children’s learning, take notes of meetings.
6. Read the body language of others (including babies and toddlers, and families from diverse linguistic backgrounds) and respond appropriately (in context).
   e.g. recognise and respond to a child’s or parent’s distress.
7. Communicate respectfully with people of different abilities, gender, sexuality, and age, and from diverse cultural, religious, socio-economic and educational backgrounds.

Observation / Sensory tasks
1. Observe children’s physical, language, cognitive, and socio-emotional behavior, learning and development.
2. Observe and supervise children to ensure their safety, development and wellbeing.
3. Monitor the setting and broader environment to ensure children’s safety and wellbeing.
   e.g. monitor and supervise children who are on an excursion
Physical tasks
1. Meet ongoing immunisation requirements.
2. Attend to the physical and emotional needs of young children.
   e.g. assist with feeding and eating, nappy changing; lift and carry children as needed
3. Set up appropriate indoor and outdoor learning environments, (including carrying and setting up teaching resources and equipment)
4. Tidy and/or clean up as routinely required.
   e.g. wipe down tables, clean a nappy change mat, sweep the floor, etc.
5. Attend professional experience in a range of long day care and preschool settings, in a range of geographical locations, and for the required number of hours/days within a reasonable timeframe.
6. Complete professional experience on a full time basis i.e. this will include continuous blocks for up to 85 days).
7. Complete relevant certifications and workplace training
   i.e. First Aid, Asthma, Anaphylaxis, and Child Protection (Identify and Respond to Children and Young People) training; Working with Children check

Intellectual tasks
1. Gather, comprehend and organise information
   e.g. developmental summaries, professional experience folders
2. Integrate theory and knowledge from various sources.
   e.g. develop individual programs based on theory, children’s interests, current research, relevant curriculum framework, and the centre’s philosophy.
3. Develop options and assess and compare their respective merits.
   e.g. provide a range of curriculum options that extend children’s learning; read, understand and apply research to children, families and communities
4. Accurately recall information without reference.
   e.g. provide a verbal report about a child’s learning to their parents and to other educators and relevant professionals
5. Engage in rational and ethical reasoning.
6. Understand another person’s perspective
7. Complete tasks in a safe and reasonable time frame
8. Maintain a sufficient level of concentration to focus on an activity to completion

Interpersonal and social interactions
1. Control the expression of your own emotions
   e.g. remain calm and professional in difficult circumstances, maintain professional empathy when a child is injured, wets themself, etc.
2. Be able to work effectively in the face of uncertainty and adapt to changing environments
   e.g. demonstrate resilience and competence when allocated supervision of children
3. Accept and fulfill responsibilities you are given within the workplace
   e.g. ensure duty of care procedures are followed, arrive at professional experience placements on time
4. Contribute to and support a positive workplace culture
   e.g. be aware of and respect line management
5. Respond appropriately to constructive feedback from teachers, supervisors, mentors and peers.
6. Manage your own physical and mental health effectively
7. Respect personal and professional boundaries.
8. Dress appropriately and safely for the workplace
9. Manage interpersonal conflict
10. Demonstrate self awareness and ensure your own motives, attitudes and behaviours do not adversely affect children and young people, colleagues, parents/caregivers.
11. Actively and appropriately participate in collaborative tasks and group work.
   e.g. participate in discussions with fellow students, parents, colleagues, and /or other professionals

FREQUENTLY ASKED QUESTIONS
Why have a list of Inherent Requirements for Early Childhood Education Courses?
We think it’s important for students to be aware of the Inherent Requirements they will need to meet in university subjects and courses. This information enables prospective students to make informed decisions about their subject and career choices. In the case Early Childhood Education, many of the Inherent Requirements relate to contact with children, families, and other educators. This contact increases with
each year of the course and we believe it's important to be clear from the beginning about what is required to be able to successfully complete the course.

The Inherent Requirements are likely to be particularly helpful for students with disabilities. Many students successfully manage their disabilities with external support, and opt not to notify the University. However, the University's Disability Services assists hundreds of current students with a disability, and provides prospective students with advice about the support services offered at the University. Where necessary, after confidential registration of a disability, Disability Services negotiates reasonable adjustments for students with the relevant Faculty. Adjustments to coursework and assessments may also be made for students with carer's responsibilities, or cultural or religious needs. These adjustments may include such things as building and timetabling modifications, recording teaching material and special examination provisions. For professional experience, it may include negotiating with supervisors in advance of the placement for reasonable adjustments. Adjustments must be reasonable and cannot compromise the academic integrity of a course. Reasonable adjustments are provided to assist students to achieve the inherent requirements, not as a substitute for them.

How are lists of Inherent Requirements developed?
They are developed from the required learning outcomes of the courses. Course structure and content, including learning outcomes, are designed to ensure that the course meets required standards. In addition to meeting general higher education standards, Early Childhood Education courses are accredited (inspected and approved) by specialist groups. In Australia, the Australian Children’s Education and Care Authority (ACECQA) is responsible for assessing programs of study and education providers against accreditation standards.

Do I have to disclose any disability I believe I may have? Is there an assessment?
No, the information on Inherent Requirements is provided for your guidance. While registration with Disability Services is necessary for you to obtain reasonable adjustments, you are not otherwise required to disclose your disability to the University, unless it poses a risk to your health or safety or to that of others.

What should I do if I am worried about my ability to successfully undertake a listed essential requirement?
You can make contact with the Faculty’s Early Childhood Education Program Director or with Disability Services to discuss your specific issue. Liaison will occur, if necessary, with appropriate protection of your privacy. The Faculty’s initial contact person is Ms Maria McQuilty. She can be contacted at +61 2 9351 4301 or maria.mcquilty@sydney.edu.au. The Disability Services Team can be contacted on +61 2 86278422 or disability.services@sydney.edu.au

What is an adjustment?
These are modifications or accommodations made by the University that have the effect of assisting a student with a disability to participate or access something on the same basis as someone without a disability. Common accommodations include aids to vision or hearing (which many people of course wear every day). Disability Services at Sydney University works to support students with disabilities, including negotiating reasonable adjustments for students. These adjustments are frequently related to assessment, e.g. extra time in examinations, allowing students to type instead of handwriting, or may relate to such issues as timetabling or access. Other assistance for fieldwork may include adjusting hours of work and the allocation of the type of placement may also be adjusted where needed to ensure the psychological safety of the student.

Sydney University has obligations under the Disability Discrimination Act 1992 (Cth), the Anti-Discrimination Act 1977 (NSW) and the Disability Standards for Education 2005 (Cth) to ensure that reasonable adjustments are available. Adjustments must be reasonable and cannot compromise the academic integrity of a course. Reasonable adjustments are provided to assist students to achieve the Inherent Requirements, not as a substitute for them.

Can I enrol even if I am not sure I will be able to carry out some of the Inherent Requirements?
Yes. In fact, it will usually be unlawful for the University to restrict enrolment on the basis of disability, or to discriminate against students with a disability in other ways.
What happens if I do enrol and I am unable to carry out some of the Inherent Requirements?
Assessment is carried out with approved reasonable adjustments. If, even with reasonable adjustments, you are unable to carry out some of the Inherent Requirements, you may fail an essential component of the course. In this event, you will be unable to graduate with an early childhood teaching degree.
