Information]

2012

Subvolume Localization on PET-CT Images. The Journal of Nuclear Medicine, 53(Supplement 1), 268.

2011

Song, Y., Cai, W., Eberl, S., Fulham, M., Feng, D. (2011),

2010

2009

Structures with Attentive Objects for Image Classification Using

2008

2007

estimation with GLLS and the Bootstrap Monte Carlo method for dynamic SPECT. 28th Annual International Conference of the IEEE Engineering in Medicine and Biology Society EMBS 2006, United States: Institute of Electrical and Electronics Engineers (IEEE).

2005

Kim, J., Cai, W., Feng, D., Eberl, S. (2005). Interactive Multi-Volume Visualization of Segmented Structures within PET-CT Data Sets. The Journal of Nuclear Medicine, 46, 466P.

2004

Kinetic Filtering. *The Journal of Nuclear Medicine*, 45, 469P.

2003

**2002**

Wang, Z., Chi, Z., Feng, D. (2002). Structural Representation and BPTS Learning for Shape Classification. 9th International Conference on Neural Information Processing (ICONIP’02) 4th Asia Pacific Conference on Simulated Evolution and Learning (SEAL’02) 1st International Conference on Fuzzy Systems and Knowledge Discovery (FSKD’02), Singapore: School of Electrical and Electronic Engineering, Nanyang Technological University, Singapore.
