transient stability of multi-machine power systems:
synchronization via immersion of a pendular system. 2011
American Control Conference (ACC 2011), San Francisco:
American Automatic Control Council (AACC).

dynamical networks with non-identical nodes and coupling
time-delays. SIAM Journal on Control and Optimization, 49(2),

Liu, T., Hill, D., Zhao, J. (2011). Incremental-dissipativity-
based synchronization of interconnected systems. 18th World
Congress of the International Federation of Automatic Control
(IFAC 2011), Milan: International Federation of Automatic
Control (IFAC). <a href="http://dx.doi.org/10.3182/20110828-
6-IT-1002.02784">[More Information]</a>

cyclic-small-gain in continuous-time dynamical networks.

Control of Nonlinear Systems: A Cyclic-small-gain Approach.
30th Chinese Control Conference (CCC 2011), Piscataway,
USA: Institute of Electrical and Electronics Engineers (IEEE).

Strict-feedback Systems with Measurement Errors. 50th IEEE
Conference on Decision and Control and European Control
Conference (CDC-ECC 2011), New York, USA: Institute of
Electrical and Electronics Engineers (IEEE). <a href="http://dx.doi.org/10.1109/CDC.2011.6106668">[More Information]</a>

networks with non-identical nodes: a multiple V-Lyapunov

time impulsive hybrid systems with mixed K-dissipativity. 30th
Chinese Control Conference (CCC 2011), Piscataway, USA: Institute of Electrical and Electronics Engineers (IEEE).

Colagiuri, R., Hill, D., Johnson, G., Lalor, E., Moodie, R.,
Olver, I., Roberts, L., Robinson, H., Wilson, A., Greenland, R.

Zhao, J., Hill, D., Liu, T. (2010). Passivity-based Output Synchronization of Dynamical Networks with Non-identical Nodes. 49th IEEE Conference on Decision and Control (CDC 2010), Atlanta: Institute of Electrical and Electronics Engineers (IEEE).
