

FACULTY OF MEDICINE AND HEALTH - SYDNEY MEDICAL PROGRAM FLEXIBLE STUDY PROVISIONS 2020

1 Purpose and application

- (1) These provisions facilitate integration of international students into the system in which they intend to practise medicine by permitting appropriate variations to students' programs.
- (2) These provisions apply to international students enrolled in Stage 3 of the Sydney Medical Program.

2 Commencement

These provisions commence on 1 January 2020.

term means the terms in Stage 3 of the Medical Program, which are referred to as terms A - J inclusive.

4 Eligibility

- (1) International students who have been granted permanent residency will be regarded as local students and will not be eligible for placement under these provisions except as provided in subclause 4(2).
- (2) If an international student:
 - (a) has obtained full approval for the term; and
 - (b) is granted permanent residency less than eight weeks before commencement of the termthe student may apply for permission to proceed with an approved overseas placement.
- (3) International students undertaking overseas placement must be of good standing and be recommended by the Head of their clinical school as being suitable to represent Sydney Medical School overseas.

5 General requirements for overseas placements

- (1) Placements must be organised:
 - (a) directly by the international student; or
 - (b) through one of the Office for Global Health exchanges.
- (2) Placements must comply with the standards of the Sydney Medical Program.

6 Pre-Internship Term (PRINT)

- (1) International students are expected to undertake their PRINT in the system in which they are intending to do their internship, which must be:
 - (a) in their country of origin; or
 - (b) for North American students, in either Canada or the USA.
- (2) International students may apply to undertake their PRINT in an accredited medical centre in the selected country.
- (3) Approval must be sought at least two months before commencement of the PRINT, from each of:
 - (a) the Stage 3 coordinator; and
 - (b) the Head of the student's clinical school.

7 Electives

International students may undertake an elective overseas in Term F in the same manner as local students.

8 Core blocks

- (1) International students may apply to complete four or eight weeks of any one core block in their country of origin or, for North American students, in either Canada or the USA.
 - (a) This may be undertaken as:
 - (i) one placement of eight weeks;
 - (ii) two placements of four weeks each; or
 - (iii) one placement of four weeks.
- (2) Any other international student may apply to complete four or eight weeks of any one core block in North America.
 - (a) Sydney Medical School will consider such applications on a case-by-case basis, considering:
 - (i) the applicant's needs;
 - (ii) The applicant's academic performance; and
 - (iii) the characteristics of the proposed placement.
- (3) Approval must be sought at least three months before the commencement of the relevant block from each of:
 - (a) the relevant Head of Discipline;
 - (b) specialty block co-ordinator;
 - (c) the Head of the student's clinical school; and
 - (d) the Stage 3 coordinator
- (4) If approval is given to complete a core block overseas, all specialty blocks must be completed in Australia.

9 Specialty blocks

- (1) International students may apply to do part of **one** of the Stage 3 specialty blocks in their country of origin or for North American students, in either Canada or the USA.
- (2) Any other international student may apply to complete between four and seven weeks of a Child and Adolescent Health, Perinatal and Women's Health or Community specialty block in North America.
 - (a) Sydney Medical School will consider such applications on a case-by-case basis, considering:
 - (i) the applicant's needs;
 - (ii) the applicant's academic performance; and
 - (iii) the characteristics of the proposed placement.
- (3) Approval must be sought before commencement of the relevant block from each of:
 - (a) the relevant specialty block co-ordinator;
 - (b) the Head of the student's clinical school; and
 - (c) the Stage 3 coordinator.

- (4) **For Child and Adolescent Health:**
- (a) international students may complete the first four weeks of the block overseas; but
 - (b) must attend the structured teaching week (week five) and the rest of the Child and Adolescent Health block (including the examination week eight) in Sydney; and
 - (c) approval must be sought six months before commencement of the relevant term.
- (5) **For Perinatal and Women's Health:**
- (a) international students may complete four weeks overseas, which must comprise the obstetrics and gynaecology components of the block; but
 - (b) must undertake the neonatology component of the block in Sydney;
 - (c) must be in Sydney for:
 - (i) the lecture/orientation week (week one);
 - (ii) at least one week of neonatology; and
 - (iii) the examination week (week eight); and
 - (d) approval must be sought 12 weeks before commencement of the relevant term.
- (6) **For General Practice:**
- (a) international students may complete seven weeks of the block overseas; but
 - (b) must be in Sydney for:
 - (i) the first three days of the term (week one) which includes the orientation; and
 - (ii) the assessments in week eight;
 - (c) placement approvals must be approved no later than 12 weeks before commencement of the relevant term; and
 - (d) full approval, including University placement agreements, must be finalised no later than eight weeks before commencement of the term.
- (7) If approval is given to complete a specialty block overseas, all core blocks must be completed in Australia.

10 Impact of flexible arrangements on progression

- (1) International students are responsible for ensuring that:
- (a) any flexible arrangements into which they enter, including any overseas placements:
 - (i) meet the criteria of the Sydney Medical Program; and
 - (ii) provide sufficient and appropriate training and clinical experience; and
 - (b) they have sufficient study time and adequate preparation for examinations.
- (2) A claim that an overseas placement was inadequate will not be an acceptable basis for an appeal in any circumstances.
