

Publications for Dieter Hochuli

2019

Leonard, R., Vergoz, V., Proschogo, N., McArthur, C., Hochuli, D. (2019). Petrol exhaust pollution impairs honey bee learning and memory. *Oikos*, 128(2), 264-273. [More Information]

2018

Lowe, E., Threlfall, C., Wilder, S., Hochuli, D. (2018). Environmental drivers of spider community composition at multiple scales along an urban gradient. *Biodiversity and Conservation*, 27(4), 829-852. [More Information]

Leonard, R., McArthur, C., Hochuli, D. (2018). Habitat complexity does not affect arthropod community composition in roadside greenspaces. *Urban Forestry and Urban Greening*, 30, 108-114. [More Information]

Hochuli, D., Threlfall, C. (2018). Planning for protection: Promoting pest suppressing urban landscapes through habitat management. In Alessandro Ossola, Jari Niemela (Eds.), *Urban Biodiversity: From Research to Practice*, (pp. 54-70). Oxon: Routledge.

Leonard, R., Wat, K., McArthur, C., Hochuli, D. (2018). Urbanisation and wing asymmetry in the western honey bee (*Apis mellifera*, Linnaeus 1758) at multiple scales. *PeerJ*, 6, 1-15. [More Information]

Taylor, L., Hahs, A., Hochuli, D. (2018). Wellbeing and urban living: nurtured by nature. *Urban Ecosystems*, 21(1), 197-208. [More Information]

2017

Calver, M., Adam, P., van Dooren, T., Rose, D., Wallis, I., Banks, P., Hochuli, D. (2017). Dangerous Ideas in zoology: Plenary session 2. *Australian Zoologist*, 38(3), 414-421. [More Information]

Taylor, L., Hochuli, D. (2017). Defining greenspace: Multiple uses across multiple disciplines. *Landscape and Urban Planning*, 158, 25-38. [More Information]

Lee, T., Evans, T., Cameron, S., Hochuli, D., Ho, S., Lo, N. (2017). Ecological diversification of the Australian *Coptotermes* termites and the evolution of mound building. *Journal of Biogeography*, 44, 1405-1417. [More Information]

McElroy, D., Hochuli, D., Doblin, M., Murphy, R., Blackburn, R., Coleman, R. (2017). Effect of copper on multiple successional stages of a marine fouling assemblage. *Biofouling*, 33(10), 904-916. [More Information]

Hanford, J., Crowther, M., Hochuli, D. (2017). Effectiveness of vegetation-based biodiversity offset metrics as surrogates for ants. *Conservation Biology*, 31(1), 161-171. [More Information]

Leonard, R., Hochuli, D. (2017). Exhausting all avenues: why impacts of air pollution should be part of road ecology. *Frontiers in Ecology and the Environment*, 15(8), 443-449. [More Information]

Banks, P., Hochuli, D. (2017). Extinction, de-extinction and conservation: a dangerous mix of ideas. *Australian Zoologist*, 38(3), 390-394. [More Information]

Lowe, E., Wilder, S., Hochuli, D. (2017). Life history of an urban-tolerant spider shows resilience to anthropogenic habitat disturbance. *Journal of Urban Ecology*, 3(1), 1-10. [More Information]

Leonard, R., Hochuli, D. (2017). The Multifaceted Nature of Vulnerability in Managed Bees: A Response to Klein et al. *Trends in Ecology and Evolution*, 32(9), 633-635. [More Information]

2016

McElroy, D., Doblin, M., Murphy, R., Hochuli, D., Coleman, R. (2016). A limited legacy effect of copper in marine biofilms. *Marine Pollution Bulletin*, 109, 117-127. [More Information]

Leonard, R., McArthur, C., Hochuli, D. (2016). A multistressor, multitrail approach to assessing the effects of wind and dust on *Eucalyptus tereticornis*. *American Journal of Botany*, 103(8), 1466-1471. [More Information]

Leonard, R., McArthur, C., Hochuli, D. (2016). Exposure to wind alters insect herbivore behaviour in larvae of *Uraba lugens* (Lepidoptera: Nolidae). *Austral Entomology*, 55(3), 242-246. [More Information]

Low, P., McArthur, C., Hochuli, D. (2016). Head capsule stacking by caterpillars: morphology complements behaviour to provide a novel defence. *PeerJ*, 4(2), 1-13. [More Information]

Low, P., McArthur, C., Hochuli, D. (2016). It is safe to go out on a limb: within-tree leaf age and location do not alter predation risk for insect herbivores. *Austral Entomology*, 55(3), 284-290. [More Information]

Leonard, R., McArthur, C., Hochuli, D. (2016). Particulate matter deposition on roadside plants and the importance of leaf trait combinations. *Urban Forestry and Urban Greening*, 20, 249-253. [More Information]

href="http://dx.doi.org/10.1016/j.ufug.2016.09.008">[More Information]

Lowe, E., Wilder, S., Hochuli, D. (2016). Persistence and survival of the spider *Nephila plumipes* in cities: do increased prey resources drive the success of an urban exploiter? *Urban Ecosystems*, 19(2), 705-720. [More Information]

2015

Lydecker, H., Stanfield, E., Lo, N., Hochuli, D., Banks, P. (2015). Are urban bandicoots solely to blame for tick concerns? *Australian Zoologist*, 37(3), 288-293. [More Information]

Taylor, L., Hochuli, D. (2015). Creating better cities: how biodiversity and ecosystem functioning enhance urban residents' wellbeing. *Urban Ecosystems*, 18(3), 747-762. [More Information]

Van den Berg, F., Thompson, M., Hochuli, D. (2015). When hot rocks get hotter: behavior and acclimatization mitigate exposure to extreme temperatures in a spider. *Ecosphere*, 6(5), 1-17. [More Information]

2014

Low, P., McArthur, C., Hochuli, D. (2014). Dealing with your past: experience of failed predation suppresses caterpillar feeding behaviour. *Animal Behaviour*, 90, 337-343. [More Information]

Low, P., Sam, K., McArthur, C., Posa, M., Hochuli, D. (2014). Determining predator identity from attack marks left in model caterpillars: guidelines for best practice. *Entomologia Experimentalis et Applicata*, 152(2), 120-126. [More Information]

Low, P., McArthur, C., Fisher, K., Hochuli, D. (2014). Elevated volatile concentrations in high-nutrient plants: do insect herbivores pay a high price for good food? *Ecological Entomology*, 39(4), 480-491. [More Information]

Lowe, E., Wilder, S., Hochuli, D. (2014). Urbanisation at Multiple Scales Is Associated with Larger Size and Higher Fecundity of an Orb-Weaving Spider. *PloS One*, 9(8), 1-7. [More Information]

2013

Matias, M., Coleman, R., Hochuli, D., Underwood, A. (2013). Macrofaunal Responses to Edges Are Independent of Habitat-Heterogeneity in Experimental Landscapes. *PloS One*, 8(4), 1-8. [More Information]

Low, P., Angus, W., Wagner, A., Wilkin, D., Shiels, M., Dockerill, R., Hochuli, D. (2013). Use of spider silk for nest building by the Regent Honeyeater *Anthochaera phrygia* and the Helmeted Honeyeater *Lichenostomus melanops cassidix*. *Australian Zoologist*, 36(3), 349-354. [More Information]

2012

Powell, F., Hochuli, D., Symonds, C., Cassis, G. (2012). Are psyllids affiliated with the threatened plants *Acacia ausfeldii*, *A. dangarensis* and *A. gordonii* at risk of co-extinction? *Austral Ecology*, 37(1), 140-148. [More Information]

2011

Powell, F., Hochuli, D., Cassis, G. (2011). A new host and additional localities for the rare psyllid *Acizzia keithi* Taylor and Moir (Hemiptera: Psyllidae). *Australian Journal of Entomology*, 50(4), 441-444. [More Information]

Matias, M., Underwood, A., Hochuli, D., Coleman, R. (2011). Habitat identity influences species-area relationships in heterogeneous habitats. *Marine Ecology Progress Series*, 437, 135-145. [More Information]

Lunney, D., Hutchings, P., Hochuli, D. (2011). *The Natural History of Sydney*. Mosman NSW 2088: Royal Zoological Society of New South Wales.

2010

Matias, M., Underwood, A., Hochuli, D., Coleman, R. (2010). Independent effects of patch size and structural complexity on diversity of benthic macroinvertebrates. *Ecology*, 91(7), 1908-1915. [More Information]

Lunney, D., Hutchings, P., Hochuli, D., Recher, H. (2010). Is the natural history of Sydney so camouflaged that it will not survive? *Royal Zoological Society of NSW 2007 Forum The Natural History of Sydney*, Mosman, NSW: Royal Zoological Society of New South Wales. [More Information]

Lomov, B., Keith, D., Hochuli, D. (2010). Pollination and Plant Reproductive Success in Restored Urban Landscapes Dominated by a Pervasive Exotic Pollinator. *Landscape and Urban Planning*, 96, 232-239. [More Information]

2009

Hochuli, D., Christie, F., Lomov, B. (2009). Invertebrate biodiversity in urban landscapes: assessing remnant habitat and its restoration. In Mark J. McDonnell, Amy K. Hahs, Jurgen H. Breuste (Eds.), *Ecology of Cities and Towns: A Comparative Approach*, (pp. 215-232). Cambridge, UK: Cambridge University Press.

Lomov, B., Keith, D., Hochuli, D. (2009). Linking ecological function to species composition in ecological restoration: Seed removal by ants in recreated woodland. *Austral Ecology*, 34, 751-760. [More Information]

Blamires, S., Hochuli, D., Thompson, M. (2009). Prey protein influences growth and decoration building in the orb web spider *Argiope keyserlingi*. *Ecological Entomology*, 34, 545-550. [More Information]

Christie, F., Hochuli, D. (2009). Responses of wasp communities to urbanization: effects on community resilience and species diversity. *Journal of Insect Conservation*, 13, 213-

221. [More Information]

Christie, F., Cassis, G., Hochuli, D. (2009). Urbanization affects the trophic structure of arboreal arthropod communities. *Urban Ecosystems*, 1-12. [More Information]

2008

Hochuli, D., Banks, P. (2008). Selection pressures on zoology teaching in Australian universities: student perceptions of zoological education and how to improve it. *Australian Zoologist*, 34(4), 544-553. [More Information]

Lassau, S., Hochuli, D. (2008). Testing predictions of beetle community patterns derived empirically using remote sensing. *Diversity and Distributions*, 14(1), 138-147. [More Information]

Blamires, S., Hochuli, D., Thompson, M. (2008). Why cross the web: decoration spectral properties and prey capture in an orb spider (*Argiope keyserlingi*) web. *Biological Journal of the Linnean Society*, 94(2), 221-229. [More Information]

2007

Lassau, S., Hochuli, D. (2007). Associations between wasp communities and forest structure: Do strong local patterns hold across landscapes? *Austral Ecology*, 32(6), 656-662. [More Information]

Wratten, S., Hochuli, D., Gurr, G., Tylianakis, J., Scarratt, S. (2007). Conservation, Biodiversity and Integrated Pest Management. *Perspectives in ecological theory and integrated pest management*, (pp. 223-224). Cambridge: Cambridge University Press.

Blamires, S., Hochuli, D., Thompson, M. (2007). Does decoration building influence antipredator responses in an orb-web spider (*Argiope keyserlingi*) in its natural habitat? *Australian Journal of Zoology*, 55(1), 1-7. [More Information]

Reid, A., Hochuli, D. (2007). Grassland invertebrate assemblages in managed landscapes: Effect of host plant and microhabitat architecture. *Austral Ecology*, 32(6), 708-718. [More Information]

Blamires, S., Thompson, M., Hochuli, D. (2007). Habitat selection and web plasticity by the orb spider *Argiope keyserlingi* (Argiopidae): Do they compromise foraging success for predator avoidance? *Austral Ecology*, 32(5), 551-563. [More Information]

2006

Lomov, B., Keith, D., Britton, D., Hochuli, D. (2006). Are butterflies and moths useful indicators for restoration monitoring? A pilot study in Sydney's Cumberland Plain Woodland. *Ecological Management and Restoration*, 7(3), 204-210. [More Information]

Goldsbrough, C., Shine, R., Hochuli, D. (2006). Factors affecting retreat-site selection by coppertail skinks (*Ctenotus taeniolatus*) from sandstone outcrops in eastern Australia.

Austral Ecology, 31(3), 326-336. [More Information]

Tatarnic, N., Cassis, G., Hochuli, D. (2006). Traumatic insemination in the plant bug genus *Coridromius* Signoret (Heteroptera: Miridae). *Biology Letters*, 2(1), 58-61. [More Information]

2005

Lassau, S., Hochuli, D., Cassis, G., Reid, C. (2005). Effects of habitat complexity on forest beetle diversity: do functional groups respond consistently? *Diversity and Distributions*, 11(1), 73-82. [More Information]

Christie, F., Hochuli, D. (2005). Elevated levels of herbivory in urban landscapes: are declines in tree health more than an edge effect? *Ecology and Society*, 10(1), 1-9. [More Information]

Lassau, S., Cassis, G., Flemons, P., Wilkie, L., Hochuli, D. (2005). Using high-resolution multi-spectral imagery to estimate habitat complexity in open-canopy forests: can we predict ant community patterns? *Ecography*, 28(4), 495-504. [More Information]

Lassau, S., Hochuli, D. (2005). Wasp community responses to habitat complexity in Sydney sandstone forests. *Austral Ecology*, 30(2), 179-187. [More Information]

2004

Hochuli, D., Gibb, H., Burrows, S., Christie, F. (2004). Ecology Of Sydney's Urban Fragments: Has Fragmentation Taken The Sting Out Of Insect Herbivory? In Not known (Eds.), *Urban Wildlife: more than meets the eye*, (pp. 63-69). Mosman: Royal Zoological Society of New South Wales.

Lassau, S., Hochuli, D. (2004). Effects Of Habitat Complexity On Ant Assemblages. *Ecography*, 27(2), 157-164. [More Information]

Goldsbrough, C., Hochuli, D., Shine, R. (2004). Fitness Benefits of Retreat-site selection: Spiders, Rocks, and Thermal Cues. *Ecology*, 85(6), 1635-1641. [More Information]

Hochuli, D., Gibb, H. (2004). Removal Experiment Reveals Limited Effects Of A Behaviorally Dominant Species On Ant Assemblages. *Ecology*, 85(3), 648-657. [More Information]

2003

Gibb, H., Hochuli, D. (2003). Colonisation by a dominant ant facilitated by anthropogenic disturbance: effects on ant assemblage composition, biomass and resource use. *Oikos*, 103(3), 469-478. [More Information]

Goldsbrough, C., Hochuli, D., Shine, R. (2003). Invertebrate biodiversity under hot rocks: habitat use by the fauna of sandstone outcrops in the Sydney region. *Biological Conservation*, 109(1), 85-93. [More Information]

Gibb, H., Hochuli, D. (2003). Nest relocation in the golden spiny ant, *Polyrhachis ammon*: environmental cues and temporal castes. *Insectes Sociaux*, 50(4), 323-329. [More Information]

Reader, T., Hochuli, D. (2003). Understanding gregariousness in a larval Lepidopteran: The roles of host plant, predation, and microclimate. *Ecological Entomology*, 28(6), 729-737. [More Information]

2002

Gibb, H., Hochuli, D. (2002). Habitat fragmentation in an urban environment: large and small fragments support different arthropod assemblages. *Biological Conservation*, 106(1), 91-100. [More Information]

2001

Hochuli, D. (2001). Insect herbivory and ontogeny: How do growth and development influence feeding behaviour, morphology and host use? *Austral Ecology*, 26, 563-570. [More Information]
