Hare, K., Pledger, S., Thompson, M., Miller, J., Daugherty, C.
(2010). Nocturnal lizards from a cool-temperate environment have high metabolic rates at low temperatures. *Journal of Comparative Physiology B: Biochemical, Systemic, and Environmental Physiology*, 180, 1173-1181.  
Grigg, G., Thompson, M., Beard, L., Harlow, P. (2010). Oxygen levels in mound nests of Crocodylus porosus and Alligator mississippiensis are high, and gas exchange occurs primarily by diffusion, not convection. *Australian Zoologist*, 35(2), 235-244.
