

Publications for Nicolas Flament

2018

Muller, R., Hassan, R., Gurnis, M., Flament, N., Williams, S. (2018). Dynamic topography of passive continental margins and their hinterlands since the Cretaceous. *Gondwana Research*, 53, 225-251. [More Information]

Zahirovic, S., Tobin, J., Hill, K., Matthews, K., Flament, N., Gurnis, M., Hassan, R., Seton, M., Muller, R., Brocard, G., Rey, P. (2018). Eastern Tethyan tectonics and geodynamics since Pangea breakup. *European Geosciences Union (EGU) General Assembly 2018*, Austria: EGU.

Braz, C., Seton, M., Flament, N., Muller, R. (2018). Geodynamic reconstruction of an accreted Cretaceous back-arc basin in the Northern Andes. *Journal of Geodynamics*, 121, 115-132. [More Information]

Young, A., Flament, N., Maloney, K., Williams, S., Matthews, K., Zahirovic, S., Muller, R. (2018). Global kinematics of tectonic plates and subduction zones since the late Paleozoic Era. *Geoscience Frontiers*, Article in press. [More Information]

Gurnis, M., Yang, T., Cannon, J., Turner, M., Williams, S., Flament, N., Muller, R. (2018). Global tectonic reconstructions with continuously deforming and evolving rigid plates. *Computers and Geosciences*, 116, 32-41. [More Information]

Ding, X., Salles, T., Flament, N., Rey, P. (2018). Modelling Rifting Sequence Stratigraphy Coupled with Surface Process and Thermo-Mechanical Modelling. *26th ASEG Conference / AEGC Conference*, unknown: CSIRO Publishing. [More Information]

Arnould, M., Coltice, N., Flament, N., Seigneur, V., Muller, R. (2018). On the Scales of Dynamic Topography in Whole-Mantle Convection Models. *Geochemistry, Geophysics, Geosystems*, 19(9), 3140-3163. [More Information]

Cao, W., Williams, S., Flament, N., Zahirovic, S., Scotese, C., Muller, R. (2018). Palaeolatitudinal distribution of lithologic indicators of climate in a palaeogeographic framework. *Geological Magazine*, 1-24. [More Information]

Zahirovic, S., Flament, N., Gurnis, M., Yang, T., Seton, M., Muller, R. (2018). Tectonics and mantle convection controlling the long-term emergence and flooding of Southeast Asia since the Cretaceous. *European Geosciences Union (EGU) General Assembly 2018*, Austria: EGU.

Cao, X., Flament, N., Muller, D., Li, S. (2018). The Dynamic Topography of Eastern China Since the Latest Jurassic Period. *Tectonics*, 37(5), 1274-1291. [More Information]

2017

Barnett-Moore, N., Hassan, R., Muller, R., Williams, S., Flament, N. (2017). Dynamic topography and eustasy controlled the paleogeographic evolution of northern Africa since the mid-Cretaceous. *Tectonics*, 36(5), 929-944. [More Information]

Cao, W., Zahirovic, S., Flament, N., Williams, S., Golonka, J., Muller, R. (2017). Improving global paleogeography since the late Paleozoic using paleobiology. *Biogeosciences*, 14(23), 5425-5439. [More Information]

Ding, X., Salles, T., Flament, N., Rey, P. (2017). Influence of dynamic topography on landscape evolution and passive continental margin stratigraphy. *19th EGU General Assembly, EGU2017*, Vienna: Copernicus Publications.

Salles, T., Flament, N., Muller, R. (2017). Influence of dynamic topography on the evolution of the eastern Australian landscape since the Upper Jurassic Epoch. *19th EGU General Assembly, EGU2017*, Vienna: Copernicus Publications.

Salles, T., Flament, N., Muller, R. (2017). Influence of mantle flow on the drainage of eastern Australia since the Jurassic Period. *Geochemistry, Geophysics, Geosystems*, 18(1), 280-305. [More Information]

Flament, N., Williams, S., Muller, R., Gurnis, M., Bower, D. (2017). Origin and evolution of the deep thermochemical structure beneath Eurasia. *Nature Communications*, 8, 1-9. [More Information]

Barnett-Moore, N., Hassan, R., Flament, N., Muller, R. (2017). The deep Earth origin of the Iceland plume and its effects on regional surface uplift and subsidence. *Solid Earth*, 8(1), 235-254. [More Information]

Muller, R., Xiaodong, Q., Sandwell, D., Dutkiewicz, A., Williams, S., Flament, N., Maus, S., Seton, M. (2017). The GPlates Portal: Cloud-based interactive 3D and 4D visualization of global geological and geophysical data and models in a browser. *19th EGU General Assembly, EGU2017*, Vienna: Copernicus Publications.

2016

Hassan, R., Muller, R., Gurnis, M., Williams, S., Flament, N. (2016). A rapid burst in hotspot motion through the interaction of tectonics and deep mantle flow. *Nature*, 533, 239-242. [More Information]

Williams, S., Flament, N., Muller, R. (2016). Alignment between seafloor spreading directions and absolute plate motions through time. *Geophysical Research Letters*, 43(4), 1472-1480. [More Information]

Muller, R., Flament, N., Matthews, K., Williams, S., Gurnis, M. (2016). Formation of Australian continental margin highlands driven by plate-mantle interaction. *Earth and Planetary Science Letters*, 441, 60-70. [More Information]

<http://dx.doi.org/10.1016/j.epsl.2016.02.025>>[More Information]

Flament, N., Salles, T., Muller, R. (2016). Influence of dynamic topography on the evolution of the Australian landscape since the Late Jurassic. *AGU Fall Meeting 2016*. AGU.

Zahirovic, S., Flament, N., Muller, R., Seton, M., Gurnis, M. (2016). Large fluctuations of shallow seas in low-lying Southeast Asia driven by mantle flow. *Geochemistry, Geophysics, Geosystems*, 17(9), 3589-3607. [More Information]

Ding, X., Salles, T., Flament, N., Rey, P. (2016). Modeling Passive Margin Stratigraphy from the Interplay between Sea-level Change, Thermal Subsidence, Precipitation and Dynamic Topography. *AGU Fall Meeting 2016*. AGU.

Zahirovic, S., Matthews, K., Flament, N., Muller, R., Hill, K., Seton, M., Gurnis, M. (2016). Tectonic evolution and deep mantle structure of the eastern Tethys since the latest Jurassic. *Earth-Science Reviews*, 162, 293-337. [More Information]

Muller, R., Qin, X., Sandwell, D., Dutkiewicz, A., Williams, S., Flament, N., Maus, S., Seton, M. (2016). The GPlates Portal: Cloud-Based Interactive 3D Visualization of Global Geophysical and Geological Data in a Web Browser. *PLoS One*, 11(3), 1-17. [More Information]

2015

Zahirovic, S., Flament, N., Muller, R., Seton, M., Hill, K., Gurnis, M. (2015). 3-D Plate Tectonic Reconstructions of New Guinea Since the Triassic. *International Conference and Exhibition, Melbourne, Australia 13-16 September 2015*. Society of Exploration Geophysicists and American Association of Petroleum Geologists. [More Information]

Williams, S., Flament, N., Muller, R., Butterworth, N. (2015). Absolute plate motions since 130 Ma constrained by subduction zone kinematics. *Earth and Planetary Science Letters*, 418, 66-77. [More Information]

Bower, D., Gurnis, M., Flament, N. (2015). Assimilating lithosphere and slab history in 4-D Earth models. *Physics of the Earth and Planetary Interiors*, 238, 8-22. [More Information]

Flament, N., Muller, R., Gurnis, M., Zahirovic, S., Shephard, G., Bower, D., Seton, M., Williams, S., Skogseid, J. (2015). Evolution of Large-Scale Topography and River Drainage Direction From Mantle Flow Models. *International Conference and Exhibition, Melbourne, Australia 13-16 September 2015*. Society of Exploration Geophysicists and American Association of Petroleum Geologists.

Flament, N., Gurnis, M., Muller, R., Bower, D., Husson, L. (2015). Influence of subduction history on South American topography. *Earth and Planetary Science Letters*, 430, 9-18. [More Information]

Zahirovic, S., Flament, N., Muller, R., Seton, M., Gurnis, M. (2015). Large-scale retreat and advance of shallow seas in Southeast Asia driven by mantle flow. *International Conference and Exhibition, Melbourne, Australia 13-16 September 2015*.

Society of Exploration Geophysicists and American Association of Petroleum Geologists. [More Information]

Zahirovic, S., Muller, R., Seton, M., Flament, N. (2015). Plate-mantle coupling from post-Pangea plate kinematics. *European Geosciences Union (EGU) General Assembly 2015*. Copernicus Publications.

Hassan, R., Flament, N., Gurnis, M., Bower, D., Muller, R. (2015). Provenance of plumes in global convection models. *Geochemistry, Geophysics, Geosystems*, 16(5), 1465-1489. [More Information]

Seton, M., Flament, N., Whittaker, J., Muller, R., Gurnis, M., Bower, D. (2015). Ridge subduction sparked reorganization of the Pacific plate-mantle system 60-50 million years ago. *Geophysical Research Letters*, 42(6), 1732-1740. [More Information]

Zahirovic, S., Muller, R., Seton, M., Flament, N. (2015). Tectonic speed limits from plate kinematic reconstructions. *Earth and Planetary Science Letters*, 418, 40-52. [More Information]

2014

Barnett-Moore, N., Flament, N., Heine, C., Butterworth, N., Muller, R. (2014). Cenozoic uplift of south Western Australia as constrained by river profiles. *Tectonophysics*, 622, 186-197. [More Information]

Shephard, G., Flament, N., Williams, S., Seton, M., Gurnis, M., Muller, R. (2014). Circum-Arctic mantle structure and long-wavelength topography since the Jurassic. *Journal of Geophysical Research: Solid Earth*, 119, 7889-7908. [More Information]

Flament, N., Gurnis, M., Williams, S., Bower, D., Seton, M., Muller, R. (2014). Evolution of the long-wavelength, subduction-driven topography of South America since 150 Ma. *American Geophysical Union (AGU) Fall Meeting 2014*. AGU Publications.

Flament, N. (2014). Linking plate tectonics and mantle flow to Earth's topography. *Geology*, 42(10), 927-928. [More Information]

Zahirovic, S., Seton, M., Muller, R., Flament, N. (2014). Post-Jurassic tectonic evolution of Southeast Asia. *European Geosciences Union (EGU) General Assembly 2014*. Copernicus Publications.

Rey, P., Coltice, N., Flament, N. (2014). Spreading continents kick-started plate tectonics. *Nature*, 513, 405-408. [More Information]

Flament, N., Gurnis, M., Williams, S., Seton, M., Skogseid, J., Heine, C., Muller, R. (2014). Topographic asymmetry of the South Atlantic from global models of mantle flow and lithospheric stretching. *Earth and Planetary Science Letters*, 387, 107-119. [More Information]

2013

Flament, N., Gurnis, M., Muller, R. (2013). A review of observations and models of dynamic topography. *Lithosphere*, 5(2), 189-210. [More Information]

Flament, N., Coltice, N., Rey, P. (2013). The evolution of the $^{87}\text{Sr}/^{86}\text{Sr}$ of marine carbonates does not constrain continental growth. *Precambrian Research*, 229, 177-188. [More Information]

2012

Flament, N., Gurnis, M., Williams, S., Seton, M., Muller, R., Skogseid, J. (2012). A deep mantle origin for the asymmetry of the South Atlantic margins. *EGU General Assembly 2012*, Austria: EGU.

Olivier, N., Dromart, G., Coltice, N., Flament, N., Rey, P., Sauvestre, R. (2012). A deep subaqueous fan depositional model for the Palaeoarchaean (3.46 Ga) Marble Bar Cherts, Warrawoona Group, Western Australia. *Geological Magazine*, 149(4), 743-749. [More Information]

Seton, M., Flament, N., Whittaker, J., Muller, R., Bower, D., Gurnis, M. (2012). A forward geodynamic modelling approach to understand the history of subduction along the east Asian margin. *6th eResearch Australasia Conference 2012*, Sydney: eResearch Australasia.

Flament, N., Gurnis, M., Williams, S., Seton, M., Muller, R., Skogseid, J., Heine, C. (2012). Asymmetry of the margins of the Atlantic Ocean from geodynamic models of mantle convection with lithospheric deformation. *46th Congresso Brasileiro de Geologia*, Sao Paulo: Brazilian Society of Geology.

Flament, N., Gurnis, M., Williams, S., Seton, M., Muller, R., Skogseid, J. (2012). Asymmetry of the margins of the South Atlantic from geodynamic models of lithospheric deformation and mantle convection. *34th International Geological Congress (IGC): Australia 2012*, Brisbane, Australia: International Geological Congress.

Flament, N., Gurnis, M., Williams, S., Seton, M., Muller, R. (2012). Evolution of Earth's topography from models of global mantle flow and lithospheric deformation. *6th eResearch Australasia Conference 2012*, Sydney: eResearch Australasia.

Williams, S., Flament, N., Heine, C., Vazifeshenas, M., Seton, M., Gurnis, M., Muller, R. (2012). Geodynamic modeling of passive margin systems from tectonic reconstructions with deforming plate boundaries. *EGU General Assembly 2012*, Austria: EGU.

Zahirovic, S., Muller, R., Seton, M., Flament, N., Gurnis, M., Whittaker, J. (2012). Insights on the kinematics of the India-Eurasia collision from global geodynamic models. *Geochemistry, Geophysics, Geosystems*, 13(4), 1-25. [More Information]

Matthews, K., Seton, M., Flament, N., Muller, R. (2012). Late Cretaceous to present-day opening of the southwest Pacific constrained by numerical models and seismic tomography. *Eastern Australasian Basins Symposium IV*, Crows Nest, NSW: Conference Action Pty Ltd.

Seton, M., Flament, N., Muller, R. (2012). Subduction history in the Melanesian borderlands region, SW Pacific. *Eastern Australasian Basins Symposium IV*, Crows Nest, NSW: Conference Action Pty Ltd.

Flament, N., Williams, S., Gurnis, M., Heine, C., Muller, R. (2012). Testing alternative reconstructions of the South Atlantic by comparing predicted to observed total tectonic subsidence. *34th International Geological Congress (IGC): Australia 2012*, Brisbane, Australia: International Geological Congress.

2011

Flament, N., Rey, P., Coltice, N., Dromart, G., Olivier, N. (2011). Lower crustal flow kept Archean continental flood basalts at sea level. *Geology*, 39(12), 1159-1162. [More Information]

2010

Flament, N., Rey, P., Coltice, N. (2010). Crustal growth, thermal evolution of the Earth, and Archaean emerged land surface. *2nd European Geosciences Union General Assembly*, Vienna: Copernicus GmbH.

Flament, N., Rey, P., Coltice, N. (2010). Secular cooling of the solid earth, archaean emerged land surface, and crustal growth models. *Fifth International Archean Symposium*, Perth, Western Australia: Geological Survey of Western Australia.

Zahirovic, S., Muller, R., Seton, M., Whittaker, J., Flament, N., Gurnis, M. (2010), *The India - Eurasia collision and marginal basin evolution in the NW Pacific*.

Rey, P., Flament, N., Coltice, N. (2010). The rise of the continents and the shift to modern earth. *Fifth International Archean Symposium*, Perth, Western Australia: Geological Survey of Western Australia.

Flament, N., Rey, P., Coltice, N., Dromart, G., Olivier, N. (2010). The role of lower crustal flow in the formation of subaqueous Archaean continental flood basalts. *Australian Earth Sciences Convention 2010*, australia: Conference Logistics.

Rey, P., Flament, N., Coltice, N. (2010). When continents were flat and flooded. *AGU Fall Meeting*.

2008

Flament, N., Coltice, N., Rey, P. (2008). A case for late-Archaean continental emergence from thermal evolution models and hypsometry. *Earth and Planetary Science Letters*, 275(3-4), 326-336. [More Information]
