

Publications for Paul Hick

2019

Becker, J., Ward, M., Hick, P. (2019). An epidemiologic model of koi herpesvirus (KHV) biocontrol for carp in Australia. *Australian Zoologist*, In Press, 1-11. [More Information]

Read, A., Finlaison, D., Gu, X., Hick, P., Moloney, B., Wright, T., Kirkland, P. (2019). Clinical and epidemiological features of West Nile virus equine encephalitis in New South Wales, Australia, 2011. *Australian Veterinary Journal*, 97(5), 133-143. [More Information]

Evans, O., Kan, J., Pathirana, B., Whittington, R., Dhand, N., Hick, P. (2019). Effect of emersion on the mortality of Pacific oysters (*Crassostrea gigas*) infected with Ostreid herpesvirus-1 (OsHV-1). *Aquaculture*, 505, 157-166. [More Information]

Jaramillo, D., Fielder, S., Whittington, R., Hick, P. (2019). Host, agent and environment interactions affecting Nervous necrosis virus infection in Australian bass *Macquaria novemaculeata*. *Journal of Fish Diseases*, 42(2), 167-180. [More Information]

Pathirana, B., Fuhrmann, M., Whittington, R., Hick, P. (2019). Influence of environment on the pathogenesis of Ostreid herpesvirus-1 (OsHV-1) infections in Pacific oysters (*Crassostrea gigas*) through differential microbiome responses. *Heliyon*, 5(7), 1-11. [More Information]

Whittington, R., Liu, O., Hick, P., Dhand, N., Rubio, A. (2019). Long-term temporal and spatial patterns of Ostreid herpesvirus 1 (OsHV-1) infection and mortality in sentinel Pacific oyster spat (*Crassostrea gigas*) inform farm management. *Aquaculture*, 513, 1-15. [More Information]

de Kantzow, M., Whittington, R., Hick, P. (2019). Prior exposure to Ostreid herpesvirus 1 (OsHV-1) at 18 degrees is associated with improved survival of juvenile Pacific oysters (*Crassostrea gigas*) following challenge at 22 degrees. *Aquaculture*, 507, 443-450. [More Information]

Fusianto, C., Hick, P., Becker, J. (2019). Stability of Infectious spleen and kidney necrosis virus and susceptibility to physical and chemical disinfectants. *Aquaculture*, 506, 104-111. [More Information]

Johnson, S., Hick, P., Robinson, A., Rimmer, A., Tweedie, A., Becker, J. (2019). The impact of pooling samples on surveillance sensitivity for the megalocytivirus Infectious spleen and kidney necrosis virus. *Transboundary and Emerging Diseases*, In Press, 1-11. [More Information]

Pathirana, B., McPherson, A., Whittington, R., Hick, P. (2019). The role of tissue type, sampling and nucleic acid purification

methodology on the inferred composition of Pacific oyster (*Crassostrea gigas*) microbiome. *Journal of Applied Microbiology*, 127(2), 429-444. [More Information]

2018

Hick, P., Evans, O., Rubio Zuazo, A., Dhand, N., Whittington, R. (2018). Both age and size influence susceptibility of Pacific oysters (*Crassostrea gigas*) to disease caused by Ostreid herpesvirus-1 (OsHV-1) in replicated field and laboratory experiments. *Aquaculture*, 489, 110-120. [More Information]

Whittington, R., Paul-Pont, I., Evans, O., Hick, P., Dhand, N. (2018). Counting the dead to determine the source and transmission of the marine herpesvirus OsHV-1 in *Crassostrea gigas*. *Veterinary Research*, 49, 1-21. [More Information]

Laurin, E., Thakur, K., Gardner, I., Hick, P., Moody, N., Crane, M., Ernst, I. (2018). Design standards for experimental and field studies to evaluate diagnostic accuracy of tests for infectious diseases in aquatic animals. *Journal of Fish Diseases*, 41(5), 729-749. [More Information]

Stilwell, N., Whittington, R., Hick, P., Becker, J., Ariel, E., van Beurden, S., Vendramin, N., Olesen, N., Waltzek, T. (2018). Partial validation of a TaqMan real-time quantitative PCR for the detection of ranaviruses. *Diseases of Aquatic Organisms*, 128(2), 105-116. [More Information]

Rijks, J., Saucedo, B., Brunner, J., Hick, P., Lesbarreres, D., Duffus, A., Ash, L., Marschang, R. (2018). Report on the 4th International Symposium on Ranaviruses 2017. *The Journal of Herpetological Medicine and Surgery*, 28(1-2), 13-18. [More Information]

2017

Jaramillo, D., Hick, P., Whittington, R. (2017). Age dependency of nervous necrosis virus infection in barramundi *Lates calcarifer* (Bloch). *Journal of Fish Diseases*, 40, 1089-1101. [More Information]

Whittington, R., Evans, O., Hick, P., Rubio Zuazo, A., Alford, B. (2017). Protective cover to prevent deaths due to herpesvirus in commercially farmed oysters. *Patent No. 716947*. New Zealand.

Evans, O., Hick, P., Whittington, R. (2017). Detection of Ostreid herpesvirus-1 microvariants in healthy *Crassostrea gigas* following disease events and their possible role as reservoirs of infection. *Journal of Invertebrate Pathology*, 148, 20-33. [More Information]

Hick, P., Ariel, E., Whittington, R. (2017). Epizootic Hematopoietic Necrosis and European Catfish Virus. *Unknown*, 1-13.

Chinchar, V., Hick, P., Ince, I., Jancovich, J., Marschang, R., Qin, Q., Subramaniam, K., Waltzek, T., Whittington, R., Williams, T., et al (2017). ICTV Virus Taxonomy Profile: Iridoviridae. *Journal of General Virology*, 98(5), 890-891. [More Information]

Hick, P., Subramaniam, K., Thompson, P., Waltzek, T., Becker, J., Whittington, R. (2017). Molecular epidemiology of Epizootic haematopoietic necrosis virus (EHNV). *Virology*, 511, 320-329. [More Information]

de Kantzow, M., Hick, P., Dhand, N., Whittington, R. (2017). Risk factors for mortality during the first occurrence of Pacific Oyster Mortality Syndrome due to Ostreid herpesvirus 1 in Tasmania, 2016. *Aquaculture*, 468, 328-336. [More Information]

Jaramillo, D., Hick, P., Dyrting, K., Anderson, I., Whittington, R. (2017). Surveillance for nervous necrosis virus-specific antibodies in barramundi *Lates calcarifer* in Australian hatcheries. *Diseases of Aquatic Organisms*, 124, 1-10. [More Information]

Evans, O., Hick, P., Alford, B., Whittington, R. (2017). Transmission of Ostreid herpesvirus-1 microvariant in seawater: Detection of viral DNA in seawater, filter retentates, filter membranes and sentinel *Crassostrea gigas* spat in upwellers. *Aquaculture*, 473, 456-467. [More Information]

2016

Jaramillo, D., Durr, S., Hick, P., Whittington, R. (2016). Bayesian estimation of diagnostic sensitivity and specificity of anervous necrosis virus antibody ELISADiana. *Preventive Veterinary Medicine*, 123, 138-142. [More Information]

Jaramillo, D., Hick, P., Deece, K., Tweedie, A., Kirkland, P., Arzey, E., Whittington, R. (2016). Comparison of ELISA formats for detection of antibodies specific for nervous necrosis virus (Betanodavirus) in the serum of immunized barramundi *Lates calcarifer* and Australian bass *Macquaria novemaculeata*. *Aquaculture*, 451, 33-38. [More Information]

Evans, O., Hick, P., Whittington, R. (2016). Comparison of Two External Tagging Methods Used for the Identification of Individual Adult Pacific Oysters, *Crassostrea gigas*. *The Journal of Shellfish Research*, 35(4), 837-840. [More Information]

Hick, P., Subramaniam, K., Thompson, P., Whittington, R., Waltzek, T. (2016). Complete Genome Sequence of a Bohle iridovirus Isolate from Ornate Burrowing Frogs (*Limnodynastes ornatus*) in Australia. *Genome Announcements*, 4(4), 1-2. [More Information]

Evans, O., Hick, P., Whittington, R. (2016). Distribution of Ostreid herpesvirus-1 (OsHV-1) microvariant in seawater in a recirculating aquaculture system. *Aquaculture*, 458, 21-28. [More Information]

[More Information]

de Kantzow, M., Hick, P., Becker, J., Whittington, R. (2016). Effect of water temperature on mortality of Pacific oysters *Crassostrea gigas* associated with microvariant ostreid herpesvirus 1 (OsHV-1 μ Var). *Aquaculture Environment Interactions*, 8, 419-428. [More Information]

Sah Putra, B., Hick, P., Rimmer, M., Khairul, R., Evarianti, E., Nurbariah, N., Royani, R., Tajussalatin, T., Muslim, C., Becker, J. (2016). Identification of the key pathogens responsible for production losses at grouper nurseries in Aceh Indonesia. *Frontiers in Science AquaEpi I - 2016*, Thon Conference Universitetsgaten, Oslo, Norway: Norwegian Veterinary Institute (NVI).

Hick, P., Becker, J., Whittington, R. (2016). Iridoviruses of Fish. In Frederick Kibenge and Marcos Godoy (Eds.), *Aquaculture Virology*, (pp. 127-152). London: Academic Press. [More Information]

Whittington, R., Hick, P., Evans, O., Rubio Zuazo, A., Dhand, N., Paul-Pont, I. (2016). Pacific oyster mortality syndrome: a marine herpesvirus active in Australia. *Microbiology Australia*, 37(3), 126-128. [More Information]

Gardner, I., Whittington, R., Caraguel, C., Hick, P., Moody, N., Corbeil, S., Garver, K., Warg, J., Arzul, I., Purcell, M., et al (2016). Recommended reporting standards for test accuracy studies of infectious diseases of finfish, amphibians, molluscs and crustaceans: The STRADAS-Aquatic checklist. *Diseases of Aquatic Organisms*, 118(2), 91-111. [More Information]

Hick, P., Evans, O., Looi, R., English, C., Whittington, R. (2016). Stability of Ostreid herpesvirus-1 (OsHV-1) and assessment of disinfection of seawater and oyster tissues using a bioassay. *Aquaculture*, 450, 412-421. [More Information]

Becker, J., Gonzalez, A., Hick, P., Robinson, A., Hutson, A., Hutson, K. (2016). Strategic approaches to identifying pathogens of imported ornamental fish and the risk posed to biosecurity in Australia. *Frontiers in Science AquaEpi I - 2016*, Thon Conference Universitetsgaten, Oslo, Norway: Norwegian Veterinary Institute (NVI).

2015

Miller, D., Pessier, A., Hick, P., Whittington, R. (2015). Comparative Pathology of Ranaviruses and Diagnostic Techniques. In Matthew Gray, V. Gregory Chinchar (Eds.), *Ranaviruses: Lethal Pathogens of Ectothermic Vertebrates*, (pp. 171-208). Cham: Springer. [More Information]

Duffus, A., Waltzek, T., Stohr, A., Allender, M., Gotesman, M., Whittington, R., Hick, P., Hines, M., Marschang, R. (2015). Distribution and Host Range of Ranaviruses. In Matthew Gray, V. Gregory Chinchar (Eds.), *Ranaviruses: Lethal Pathogens of Ectothermic Vertebrates*, (pp. 9-57). Cham: Springer. [More Information]

Kirkland, P., Gabor, M., Poe, I., Neale, K., Chaffey, K., Finlaison, D., Gu, X., Hick, P., Read, A., Wright, T., et al

(2015). Hendra virus infection in dog, Australia, 2013. *Emerging Infectious Diseases*, 21(12), 2182-2185. [More Information]

Becker, J., Hick, P., Hutson, K., Tweedie, A., Miller, T., Whittington, R. (2015). Ornamental fish trade as a risk to Australian biosecurity. *14th International Society of Veterinary Epidemiology and Economics meeting*, Mexico: N/A.

Allas, J., Becker, J., Miller, T., Hick, P., Whittington, R., Hutson, K. (2015). Parasites of imported marine ornamental fish (Apogonidae). *3rd FRDC Australasian Aquatic Animal Health Scientific Conference*, N/A: N/A.

Whittington, R., Hick, P., Evans, O., Rubio Zuazo, A., Alford, B., Dhand, N., Paul-Pont, I. (2015). Protection of Pacific oyster (*Crassostrea gigas*) spat from mortality due to Ostreid herpesvirus 1 (OsHV-1 Mu Var) using simple treatments of incoming seawater in landbased upwellers. *Aquaculture*, 437, 10-20. [More Information]

Becker, J., Hick, P., Hutson, K., Tweedie, A., Miller, T., Whittington, R. (2015). Strategic approaches to identifying pathogens of quarantine concern associated with the importation of ornamental fish. *3rd FRDC Australasian Aquatic Animal Health Scientific Conference*, N/A: N/A.

Evans, O., Hick, P., Dhand, N., Whittington, R. (2015). Transmission of Ostreid herpesvirus-1 in *Crassostrea gigas* by cohabitation: effects of food and number of infected donor oysters. *Aquaculture Environment Interactions*, 7, 281-295. [More Information]

2014

Evans, O., Paul-Pont, I., Hick, P., Whittington, R. (2014). A simple centrifugation method for improving the detection of Ostreid herpesvirus-1 (OsHV-1) in natural seawater samples with an assessment of the potential for particulate attachment. *Journal of Virological Methods*, 210, 59-66. [More Information]

Hick, P., Rubio, A., Evans, O., Whittington, R. (2014). Age is more important than size in determining the susceptibility of Pacific Oysters (*Crassostrea gigas*) to mortality associated with Ostreid herpesvirus-1 (OSHV-1) infection. *World Aquaculture Adelaide 2014 Create/Nurture/Grow*, N/A: N/A.

Matthaei, M., Kerr, P., Read, A., Hick, P., Haboury, S., Wright, J. (2014). Comparative quantitative monitoring of rabbit haemorrhagic disease viruses in rabbit kittens. *Virology Journal*, 109, 1-11.

Evans, O., Paul-Pont, I., Dhand, N., Hick, P., Whittington, R. (2014). Investigating the transmission factors of Ostreid herpesvirus-1 (OSHV-1) within the environment: Wild mollusc species as a possible source of infection? *World Aquaculture Adelaide 2014 Create/Nurture/Grow*, N/A: N/A.

Jaramillo, D., Fielder, S., Hick, P., Go, J., Whittington, R. (2014). Modulating factors in viral nervous necrosis (VNN). The role of host age and water temperature on disease outcome based on an Australian bass laboratory infection model. *World Aquaculture Adelaide 2014 Create/Nurture/Grow*, N/A: N/A.

Jaramillo, D., Hick, P., Fielder, S., Whittington, R. (2014). Observations on age dependency of viral nervous necrosis and

implications for disease control. *Seventh International Symposium on Aquatic Animal Health*, N/A: N/A.

2013

Jenkins, C., Hick, P., Gabor, M., Spiers, Z., Fell, S., Gu, X., Read, A., Go, J., Dove, M., O'Connor, W., et al (2013). Identification and characterisation of an ostreid herpesvirus-1 microvariant (OsHV-1 1¼-var) in *Crassostrea gigas* (Pacific oysters) in Australia. *Diseases of Aquatic Organisms*, 105(2), 109-126. [More Information]

Hick, P., Gore, K., Whittington, R. (2013). Molecular epidemiology of betanodavirus - Sequence analysis strategies and quasispecies influence outbreak source attribution. *Virology*, 436(1), 15-23. [More Information]

2012

Frost, M., Zhang, J., Edmonds, J., Prow, N., Gu, X., Davis, R., Hornitzky, C., Edla Arzey, K., Finlaison, D., Hick, P., Doggett, S., Haniotis, J., Russell, R., et al (2012). Characterization of Virulent West Nile Virus Kunjin Strain, Australia, 2011. *Emerging Infectious Diseases*, 18(5), 792-800. [More Information]

Hick, P., Read, A., Lugton, I., Busfield, F., Dawood, K., Gabor, M., Hornitzky, C., Kirkland, P. (2012). Coronavirus infection in intensively managed cattle with respiratory disease. *Australian Veterinary Journal*, 90(10), 381-386. [More Information]

Whittington, R., Jaramillo, D., Hick, P., Frances, J., Kirkland, P., Edla Arzey, K., Crane, M., Moody, N., Dyrting, K., Anderson, I. (2012). Nervous necrosis virus - New tests and epidemiological investigations suggest a way forward in disease control. *Australasian Aquaculture - "The next ten years"*, Melbourne, Victoria: N/A.

2011

Hick, P., Schipp, G., Bosmans, J., Humphrey, J., Whittington, R. (2011). Epidemiology of viral nervous necrosis in intensively cultured barramundi (*Lates calcarifer*): horizontal transmission. *First FRDC Australasian Scientific Conference on Aquatic Animal Health*, N/A: N/A.

Hick, P., Tweedie, A., Whittington, R. (2011). Optimization of Betanodavirus culture and enumeration in striped snakehead fish cells. *Journal of Veterinary Diagnostic Investigation*, 23(3), 465-475. [More Information]

Hick, P., Schipp, G., Bosmans, J., Humphrey, J., Whittington, R. (2011). Recurrent outbreaks of viral nervous necrosis in intensively cultured barramundi (*Lates calcarifer*) due to horizontal transmission of betanodavirus and recommendations for disease control. *Aquaculture*, 319, 41-52. [More Information]

2010

Hick, P., Whittington, R. (2010). Optimisation and validation of a real-time reverse transcriptase-polymerase chain reaction assay for detection of betanodavirus. *Journal of Virological Methods*, 163, 368-377. [More Information]

Hick, P., Tweedie, A., Whittington, R. (2010). Preparation of fish tissues for optimal detection of betanodavirus. *Aquaculture*, 310, 20-26. [More Information]

2009

Hick, P., Humphreys, J., Bosmans, J., Schipp, G., Whittington, R. (2009). Improved detection of nodavirus in barramundi aquaculture and epidemiological investigations of outbreaks in the Northern Territory. *Australian Veterinary Association Annual Conference*, Darwin: Australian Veterinary Association.

2008

Hick, P., Taylor, D., Begg, D., Bosmans, J., Schipp, G., Humphrey, J., Melville, L., Whittington, R. (2008). Investigation of the epidemiology of betanodavirus infection in hatchery reared barramundi (*Lates calarifer*) using real time RT-PCR. *7th Symposium on Diseases in Asian Aquaculture 2008*, Taiwan: National Taiwan University.

Hick, P., Taylor, D., Begg, D., Tweedie, A., Bosmans, J., Schipp, G., Humphrey, J., Melville, L., Whittington, R. (2008). The effect of sample preparation on the sensitivity of a real-time reverse transcriptase polymerase chain reaction assay for betanodavirus. *Australasian Aquaculture Conference 2008*, Australia: National Aquaculture Council of Australia.

2007

Whittington, R., Schipp, S., Humphrey, J., Melville, L., Hick, P., Gore, K. (2007). Biotechnology and epidemiology to control nodavirus in barramundi aquaculture. *FRDC National Nodavirus R&D Workshop 2007*, Australia: Fisheries Research and Development Corporation.

Hick, P., Gore, K., Whittington, R., Taylor, D., Begg, D., Schipp, G., Bosmans, J., Humphrey, J., Melville, L. (2007). Effect of incubation temperature on the permissivity of the SSN-1 cell line to Australian barramundi nervous necrosis virus (ABNNV). *3rd National FRDC Aquatic Animal Health Scientific Conference 2007*, Australia: Fisheries Research and Development Corporation.

Gore, K., Hick, P., Begg, D., Taylor, D., Schipp, G., Bosmans, J., Humphrey, J., Melville, L., Whittington, R. (2007). History of viral nervous necrosis outbreaks in farmed barramundi *Lates calcarifer* from the Northern Territory of Australia. *3rd National FRDC Aquatic Animal Health Scientific Conference 2007*, Australia: Fisheries Research and Development Corporation.

2006

Gore, K., Hick, P., Begg, D., Taylor, D., Schipp, G., Bosmans, J., Humphrey, J., Melville, L., Whittington, R. (2006). Effect of incubation temperature on the permissivity of the SSN-1 cell line to Australian barramundi nervous necrosis virus (ABNNV). *2006 Viral Nervous Necrosis International Symposium*, Hiroshima, Japan: Japanese Society of Fish Pathology.

Gore, K., Hick, P., Begg, D., Taylor, D., Schipp, G., Bosmans, J., Humphrey, J., Melville, J., Whittington, R. (2006). History of viral nervous necrosis outbreaks in farmed barramundi *Lates calcarifer* from the Northern Territory of Australia. *2006 Viral Nervous Necrosis International Symposium*, Hiroshima, Japan: Japanese Society of Fish Pathology.

Hick, P., Gore, K., Taylor, D., Begg, D., Schipp, G., Bosmans, J., Humphrey, J., Melville, L., Whittington, R. (2006). Permissivity of the SSN-1 cell line to *Lates calcarifer* nervous necrosis virus. *2006 Viral Nervous Necrosis International*
