Moss, A., Chrystal, P., Truong, H., Liu, S., Selle, P. (2017). Effects of phytase inclusions in diets containing ground wheat or 12.5% whole wheat (pre- and post-pellet) and phytase and protease additions, individually and in combination, to diets containing 12.5% pre-pellet whole wheat on the performance of broiler chickens. Animal Feed Science and Technology, 234, 139-150.
