Hamersley Province example.

Ore Deposit Exploration Using surface processes modelling - Sedimentologists.

Evolution of syn-depositional cross-valley faulting: numerical

Iron Ore 2013 Conference, Perth, WA: AusIMM.

Modelling stratigraphic and surface dynamics processes on a coupled thermo-mechanical lithospheric model: an example in oblique continental rifting. 8th IAG International Conference on Geomorphology, Paris: International Association of Geomorphologists.

Reconstructing the formation and in-filling of Lake Manuherikia, Otago: Linking geodynamics and surface processes. American Geophysical Union, Fall Meeting 2013/ AGU 2013, San Francisco, California, USA: American Geophysical Union.

Reconstruction of syn-depositional cross-valley faulting through numerical modelling: The Plio-Pleistocene Ambra paleovalley (northern Apennines, Italy). XI Congresso GeoSed Associazione Italiana per la Geologia del Sedimentario, Italy.
